# SKI DAY

The annual ski day was initially set for January 29th but due to the unavailability of buses on that date it was necessary to postpone the event until February 16th. Although snow conditions in mid-February were much superior and should have made for a better day for all concerned, such was not the case. With the change of date there were problems with conflicts with hockey games, the proximity to the school musical and deadlines of major academic assignments meant that a great number of students who would have enjoyed a day on the slopes were forced to cancel out at the last moment in order to fulfill the prior obligations. Unfortunately the great success of a day like the ski day is the participation of the entire school. Even though some prefer to cross-country ski while others opt for downhill it is a day when most students and a large majority of the staff engage in a common interest. It is a time when both staff and students are afforded the opportunity to perhaps become acquainted with someone that they didn't previously know very well or to see a different aspect or characteristic of someone they have only known in the classroom. Hopefully next year the problem of scheduling transportation can be avoided so that the great strength of a day of this sort can be appreciated by all.

It is possible to come to no other conclusion than the fact that there is a curse against First Soccer. Once again we had all the facilities, talent and coaching to get the job done, but luck would not look our way. Consequently an I.S.L. Championship and therefore leather remained an elusive dream.

Some people and events merit mention. For an event there was a promising tournament in Halifax that had us as the best bet for victory on the first day, only to be defeated by a series of heartbreakin shootouts on the second.

In the people category, Alex Stein and Mike Alexander combined for a fifty goal season. Ted Mirkopoulos, Corey Williams, Mark Ibbotson, Damian Brooks, Sean Nazerali, Robb Devitt, David Foster and Chris Mantrop were all players who will be leaving us next year, but not without having made a fine contribution to the squad.

Finally special thanks to Mr. "Cubby" Caldwell our best trainer and Rob Meinzer for helping out between the pipes. Of course we are all in debt to Mr. Stuart and Robo who gave and gave often without return. Thanks from all of us and shake the curse in '89.

Dave Foster

This year's edition of the 1st Football team had a lot to live up to; the previous two seasons were championship years and if we were to win another, it would have made SAC history as the first team to win three championships in a row.

Everyone's spirits were high when we met UCC at UCC for our first game even after having two weeks of practice time. The game featured a sputtering inexperienced offense, an excellent defense, and a called back touchdown by Rob Martin that would have won the game for us. The end result was UCC 11, SAC 8. This loss, however, did not deter thoughts of a championship season. The game against the league-leading and eventual champion Ridley left everyone puzzled. The first half saw SAC offense moving the ball all over the field but failing to reach the end zone. The second half saw SAC defense holding tough with excellent hits by Jamie Graham and Jason Callender. Unfortunately, the team paid for the offense's inability to score despite excellent running by Rob Martin and Mike Mills. Final score Ridley 13 SAC 11.

These losses put us out of championship contention. However, we had to bounce back with a win against Appleby in our homecoming game to save face. Although we struggled, inspirational plays by Matt McPherson and Ian Pady led to a win that showed a lot of character. We knew we had it in us, but we were too late to show it. On behalf of all the graduating players, I would like to encourage all SAC students to get interested in football. It's an excellent game coached by an excellent guy - Coach Ackerman. Thanks to Coach Galajda for all your encouragement.

To make our awards a little more interesting, I took it upon myself to add a few special ones!

**worst hand** - Jamie Graham  
**best practice catch** - Matt McPherson  
**most excited player** - Ian Pady  
**worst guy to have against you if you're a quarterback** - Jason Callender

**worst snapper beyond 7 yards** - Rod Boothby  
**best touchdown pass to another team** - Derek Plaxton  
**most injuries** - Mark Glusing  
**strongest personality** - Scott Bryk

To all returning, good luck and win the championship back for the best school in the ISAA.  
Cpts. Red, J.C.

## First Volleyball

The 1988 First Volleyball season commenced with S.A.C. hosting the Earlybird Tournament in September. The tournament was quite a success as it gave each team the opportunity to play one another before the season began.

This season could well be described as one of character and skill building as only three players had returned from last year, meaning that the majority had not experienced competition at the First Team level.

Despite these difficulties, S.A.C. fared well in the regular season play but were defeated in the quarter finals. Special mention should be made of the high calibre play and leadership provided by our captain and setter, Peter Hickey, and of the strong performance put forth by our power hitter, Mark Major. All in all, it was an enjoyable season and the experience gained should enable the team to be even more successful next season.

The junior and senior divisions of the cross-country running were really struggling as far as numbers were concerned. We have pretty good runners at the college but it seems a lot of them were involved in more highly profiled sports like soccer, volleyball and football - for example, Kevin Worry, Peter Hickey and Blair MacPherson. On top of that, keen runners like Andrew Melim and Norm Vanek got injured and missed almost all the season.

Anyhow, we had the chance to feature Randy Tsioros who will become quite an attraction in the future. I would also like to thank guys who were consistent - Pat Banska, Bill McClocklin and Jonathan Hart, to mention just a few!

**Mark Major** - a complete player ... gods couldn't stop him ... a deadly offensive weapon and a suffocating defensive player ... voted MVP for his superlative team play.

**Jim Herder** - the chief ... an unstoppable low post player and a super talent ... excellent clutch player ... voted MVP.

**Andrew Bulas** - mighty mite ... his accurate outside shot is complemented well by his daring drives to the basket ... Saints' fans will be thrilled by his antics for years to come.

**Ted Shaw** - team captain ... a worker, a banger, a grunt ... the kind of player all coaches love.

**Eric Jackson** - E.J. ... a scoring threat and a tenacious defender ... a great guy with an engaging personality.

**Chris Cattrall** - after eating some raw meat, he became a force not to be denied ... voted MIP by his teammates in recognition of his progress.

**Matt Harrison** - the utility man ... came off the bench to play several different positions ... always a gutsy effort put forth.

**Anthony Sam** - the pit-bull of ISL guards ... matured into a fine player ... scored a personal high (22 points) against Richmond Hill.

**Fergus Prentice** - SAC's Dennis Rodman ... had the potential to be a great player ... known for his famous shot, 'the runner'.

**James Barton** - recruited out of Sault Ste. Marie ... a wonderful guy to have on the team ... worked very hard this year.

**Will Hill** - the inspiration ... best manager in the ISL ... a true fan of the game.

**Mr. Josselyn** - loved by his players, respected by fellow coaches, despised by referees ... led Saints in another fine year.

## First Hockey

Gliding around the rink on an unforgettable Friday evening in early February, I began to understand what playing for the Saints meant. Spirit spread quickly amongst the fans while they gathered behind the opposition's goal. The tradition of sweet victory lives on!! The team members thank our loyal followers.

During the '88-89 season, the team learned a lot not only from losses but also from our overestimation of certain teams. I've never been part of such a wild team. Personalities ran rampant over the duration of the season: Redbush, Catbush, Ledbush, Iby, Smurf, Babyface, Sterls (Roy), Belly, Nose, Brykster, Gremlin, Me-Mack, Akie (Yapper), Alexness, Creebs, Robby M, Matty C, The Joker, and Hobbs 151 are names that the guys will never forget. Gremlin (Marshall Starkman) raked in the MVP award while Akie (Mark Atkins) controlled MIP honors. We hoped we set a good example for all the aspiring players at the school and we encourage you to experience First Hockey.

Special thanks goes to the two guys who molded the team into a winning unit. Mr. Dunford returned from sabbatical in perfect form. Mr. Kimmerer worked at us until we understood. Thank you both for your efforts; good luck to all future teams.

This year saw a somewhat smaller group of boys try out for the team, which was just as well as we were soon relegated to the old MacHouse Study Hall - cum storage room - cum Mr West's classroom - cum you name it. But for the boys who stuck it through, the spirit level was as high as ever. After several drop-outs due to injuries, a small group carried the SAC colors into battle in a very well-organized, well-attended tournament at Mayfield Secondary School in Brampton. In addition to the host school and SAC there were teams from the Ingersoll Sword Club, Ingersoll and Arthur Voaden School in St. Thomas - a total of 43 fencers. An excellent day of fencing ensued with SAC placing as follows: Alan Chung-8, Blair Leggett-10, John Park-15, Andrew Bridel-20, Clay Moodie-22, Nelson Chung-27, Thijs Spoor-30, Scott Davidson-35, Tim Morrissey-37.

Following that we held our own SAC tournament which saw Nelson Chung turn the tables and finish first. Since the end of the season, in meetings held with the other coaches and representatives of the Ontario Fencing Association, a very energetic program has been planned for 1989-90 which will ensure four high school meets and the possibility of several "participation" tournaments involving university students. The final tournament of the season will be the championship tournament which will be held at St. Andrew's College. We are therefore already looking forward eagerly to an expanded team and season for next year.

This season was one of particular triumph. The 1st Squash Team won the Independent Schools Squash championship for the first time since the departure of the great Bruce Bricnell some eight years ago. It has taken considerable dedication from the players and commitment from the coaches such as Don Stuart, David Timms, and Julian Greenwood to build the squash program at St. Andrew's.

Our success has been timely in that an additional three courts are currently under construction. In 1989 we have enjoyed our victory; now we must prepare to found a dynasty.

At long last a new pool is under construction. When finished, the state of the art facility will be the envy of every school in the ISAA. This can only promise success for the future with swimmers like Aylesworth, Hunt and Long returning for the next season.

Thanks to the team, especially the Grads (McPherson, Lopez, Vivas, Dickson, Perminand and Williams) for enduring a problem plagued season, and to Mr. Walden for dealing with the problems as quickly as possible. Regardless of this, we still managed to walk away with a first, two seconds and a third at the championships. Best of luck to the boys next year; make us proud!

Mark Lopez

Talent was the catchword this year. Our First Team was one of the best we have ever fielded, and there was enough talent left over to form a Second Team most comfortably. Both teams duly qualified for the Provincial semi-finals, and both were entered in the final at Fort York in 3rd and 5th places respectively. Unfortunately, the date of the Provincial final was put forward by a week into the Spring Break and many First Team members were not in the Province during the competition. A quickly reconstituted First Team acquitted themselves remarkably well under the circumstances - placing 5th in Ontario in 1988-89.

This year's MVP was Mike O'Connor; the MIP was Scott Martin. Daniel Thwaites won the Crowe Trophy and Brian Chan the Crowe Medal. B. J. Bjerkhamn, last year's individual Provincial champion, took the S.A.C. Shooting Trophy with a pair of 98's. All in all, a year of solid achievement.

The ski team in past S.A.C. history has had the unwarranted title of being a "joke". This year with the help of the coach, Mr. Scouler, and its dedicated athletes, the team was able to pull together and prove itself. Mr. Scouler, a "world class" skier/coach, whipped the team into shape off the slopes as well with "Willie's forty-minute workout" in the Dunlap Study Hall.

With a tremendous response during try-outs the team was able to draw from a number of experienced skiers. Unfortunately, there was only room for six racers in the qualifying meets. In the first race, the King City Invitational, the team was successful in demolishing the competition and taking first place. Instead of a trophy, the King City team has prepared sweatshirts which they planned on claiming for themselves after the race. King City didn't plan to lose the next race, but with the tragic fall of our top racer, Steve Millar, we descended to third overall in the standings.

Without our top racer, we thought that any hopes for a highly successful season were shot. However, with a quick trip to Osler's Mens' Day, we were able to rejuvenate ourselves. In the qualifying meet for OFFSA, we were able to motivate the team into a second place finish beating King City and losing to Newmarket by three hundredths of a second!

On the whole it was a very successful year for a team that took a lot of gentle persuasion to be allowed to form and compete. The team would like to thank Mr. Scouler for his eagerness in working with us and coping with an experience that he had never faced before. Hopefully this year's results will provide a base to permit the team to exist in the future and not fold as it did in the past.

Mike Weider, Rob Vogel

## Nordic Skiing

This year's weather conditions took their toll on morale and fitness levels. We seemed to spend endless amounts of time in the bus chasing after snow. Roller skiing was all right for awhile but nothing replaces the real thing. This season was definitely a rebuilding season. With the loss of many of our senior skiers, we had to rely on the enthusiasm of the many new skiers who joined the team this year. Many improvements were seen as the new skiers learned the "skating" technique.

Nordic skiing had a considerably shortened season due to the lack of snow resulting in only three races. Tom Luxemburger made great strides in mastering the technique and is this year's MIP. Ian Michael, 5th at OFFSA, ISAA Champion, is this year's MVP. Honourable mention to David Michael who placed first at the Rosseau Invitational. Thank you to this year's skiers and Mr. Harper for all their work and determination.

# First Lacrosse

This year's season was a rebuilding, but enjoyable one. With several members of the team graduating last year, many new and enthusiastic players were added.

Most of our games were against higher-ranked York Region teams. We played well in several of these, but were winless. However the level of our team spirit remained high since everyone played and we all gained valuable game experience.

The highlight of the season occurred in the York Region semi-finals against Richmond Hill. We were able to keep the score respectable. However we lost 6-2, and our opponents went on to win the tournament.

Special mention goes to our attack players Kevin Taylor, Doug Andrews, and Kevan Edwards. They were all new to the team and played fearlessly against defencemen three times their size. Our goalie Brian Ledson also deserves special mention. Brian played well all season and especially when our opponents outshot us. Thanks Led!

Special thanks to Trevor Fuller, who took the time to instruct new defencemen Marcus Yang and Chris Armaly. These three formed a solid defence and will be even better next year. Thanks to Derek Plaxton, our captain, also to Mr. Dunford and Mr. West.

Watch out for us next year!

This year was one in which we can all take pride. Although the scorebook may say differently, I feel this was a winning year. Every member of the team improved greatly over the season.

The first game was a bit shaky, losing to UCC, 181-18. But if you can not accept a defeat, you will never overcome it. Lead by Sean Nazerali, our captain, and by the superb bowling of Matt Brown and Chris Cattrall, we didn't look back.

Due to the "spinnest" bowling of Anthony Sam and Govin Permanand and the cannon-like arm of Sam in the field, many a batsman was easily outed. The consistent batting of Sam, Gill, and others, earned us our victories at the end of the season. But what kept us in contention was our team's attitude. Although we faced defeat many times, our spirit was not dampened. We continued to battle on; which paid off in the end. We finished the season with a record of 2-3. By the end of the season, we had a well-oiled machine, just waiting to trounce any opponent, as demonstrated in our game vs. Jarvis. Although not a winning season in the book, I feel we were victorious in improving in all facets of the game. Besides, "it doesn't matter whether you win or lose, but HOW YOU PLAY THE GAME", or how much fun you have! It's been a great season!

The first team had a very satisfying year, but again for the third year in a row, SAC has met its match and old nemesis, UCC. Having terrible weather and not enough time to practice had its toll on both the first and second levels.

At the ISAA, SAC's first team was grouped with you know who and two other schools. It was only fair to just hand UCC the trophy. Once play commenced, SAC had three members out of seven present to start against Ridley; but SAC won, moved on to play UCC and lost 5-0. But all was not lost because we swept Appleby 5-0 and hung on for second in our division. We met the first place team (Trinity) in the other division in the semi-finals winning 3-2 with all three singles matches won. And once again we met UCC in the finals, lost 5-0, and silver returns to SAC.

The first team must say good-bye to some valuable players - Mike Ross and Chris (Bud) Kelly who formed not only a devastating doubles pair but an even more enormous force playing singles in the ISAA. Returning are: Ben Woo (MVP), Derek Zeebelein (MIP), Dave Nourse, Jim Herder and Shiraz Mottiar.

The first team had a new tennis coach this season, Mr. Stehlík, but he is moving on; from the team to Mr. Stehlík, great thanks and we wish you all the best.

Life's interesting that way: you win some, you lose some. Unfortunately, people seem to attach winning to success. This fallacious line of thought has lead to much unhappiness. Second Soccer decided that this was the year to uncover this social atrocity, by showing people how to succeed without winning. The team had character, class, style - and we knew it. It did not become such a group of fine young men to "flaunt their stuff" at every game. We found it much more enticing to simply have fun at every opportunity. Winning was a mere symbol of smarties topping off a cake that already had chocolate icing. The hard work and effort put into our games permitted us to "smartie-up" once in a while, much to the satisfaction of our coach, T. Paolini. To the grads: party on, dudes! To the undergrads: think twice about playing Firsts next year - Seconds are much more fun!

## Kayaking

This year the Kayaking Teams raced slalom on the Beaver, tried to do enders (pirouette hopefuls) in every hole we could find and surfed just about every standing wave in Ontario. Not quite, but we saw a lot of sites.

The 1988-1989 Golf Team had three golfers return from last year's championship team: Dave Foster, Kent Matheson and Craig Matheson. Jeff Lessif won the right to be the fourth member of our team.

In our first match, at Lakefield College, we played well and won the tournament for the fifth time in six years.

The next week, for the second year in a row, we won the ISAA championship; David Foster, our MVP, was tournament low scorer with a 78. David, who has been on our team for the last four years now has his name on the championship trophy three times. The Matheson brothers may break his record as they both return next year.

## Second Basketball

The 1989 edition of Second Basketball began the season with three straight losses and finished with four straight wins. This indicates how much they improved during the season. Our final record was 7 wins and 7 losses. We lost to a strong Upper Canada team, despite a hard fought game, in the final I.S.S.A. Tournament.

Steve Timms, our Captain, was a fine team leader and Dave Nourse, our M.V.P., developed into an excellent scorer and rebounder. One of the highlights of our games was to see Bill Adams, our MIP, dribbling on a break away right up to the basket, only to kick the ball away with his big foot. Another delight was to watch Liam Robinson shoot one of his famous hook shots from the corner of the floor. He even hit the backboard once. All the players worked hard and were a pleasure to coach.

Following a testing pre-season tour, many players came back primed for a successful season. We had an abundance of talent, size and speed, as early results indicated. Our home record was 6-0, but this lured us into a false sense of confidence. Later, we faced tough away games at Appleby, Ridley and the eventual winners, T.C.S..

Individually, Mark Glusing (Captain), Harry Gundy, Ted Shaw and Matt McPherson (M.V.P.) were outstanding in the pack. Outside, Mike Alexander, John MacMillan and Rob Martin had an excellent year, and all three return next year. Matt and Rob are to be congratulated on their selection to the Ontario Under 19 team. Several players made tremendous strides in their game, especially Rashid Khan, Mark Atkins and Mark Sheardown (M.I.P.) - thanks for the effort.

With time, dedication and freedom from injury (Mark Tawil's absence all year was a key loss), we have the talent to win it all next year. Let's do it!

## Rugby Tour

In March, the second S.A.C. Rugby Tour took twenty three boys and three staff to England and Wales. Again, the pre-season tour proved to be a real test against seasoned, practiced players from Whitgift School in South London, British Grammar School, Monmouth School and Christ College, Brecon, the latter two being widely regarded among the strongest rugby schools in Wales.

We landed in Gatwick, near Whitgift. Our choice of three self-drive vans was a test for the jet-lagged drivers. Following a rest, we practiced in the mud - a real treat after weeks in the gym back home. Next day we played a good game before heading off for Saturday night in London.

Sunday morning, we travelled to Bristol with a stop in Oxford. The next day we played a tough game in a very windy, hilltop situation. Afterwards, our billets ensured that we were well fed and "watered" before we moved into Wales via Bath and a slight detour. Monmouth gave us a fine welcome to Wales and their Welsh rugby tradition. The next day we watched the England team prepare for the Wales game.

Moving to Brecon, we chose to go the "Welsh Mile", stopping at the "Big Pit Museum" in snowy Blaenavon, Brecon proved wonderful hosts. We concluded our game schedule and headed for Cardiff to watch Wales play England. The night before we were shown into the Cardiff Arms Park and, at the request of our guide, sang "O Canada". Too bad it was 11:00 PM and an empty stadium.

The International Day was wet (again), but we were very lucky to get 25 wonderful seats, courtesy of Mr. Glusing. The game over (Wales won 6-3), we headed for Gatwick. The Geek, Burn and Baggage Buses were returned, to the relief of SDS, GS and SK respectively. As we prepare for our next tour, the memories of this one linger. The rugby tour traditions - ties, hospitality, brochures, exchanging, socializing, singing, fires, friendship, expressions - were upheld, all in good measure.

## Soccer Tour

In October, fifteen members of the First Soccer squad went to Nova Scotia to participate in a 20 team round robin tournament held in Windsor at King's-Edgehill School. Upon arriving, the team was delighted to be welcomed by former Assistant Headmaster of S.A.C., Mr. Geoff Smith, now Headmaster at King's-Edgehill.

The next day, we trudged onto the field, hardly intent on facing our favourite group of players from Appleby, who had defeated us in both of our last encounters. Suddenly, before the team cheer, team psychiatrist, philosopher and artist Charles Emerson burst into talk. He introduced a new and revolutionary theory that everyone should "Be a Catalyst" and form a continuing chain of talk on the field. This moved us all and we ended up toppling the mighty but dumfounded Appleby squad by a score of 2-0. We continued our fantastic play into the

afternoon, beating a Montreal squad 1-0. Again, the next morning, our consistent effort brought us a 4-0 victory over a local team. We appeared unstoppable.

That afternoon, however, an incredibly lucky Newfoundland team came back from our 1-0 lead to tie us 1-1 in the last minute of play. We went into a shootout, where we were beaten. The third day brought us a difficult chore. To enter the semi-finals, we had to beat an undefeated team from Massachusetts. Yet again, we outplayed the team and were winning 1-0 with one minute to play. The team tied us then defeated us in the shootout. After an easy consolation defeat over Crescent 4-0, we ended up ranked 5th out of the 20 teams. Interestingly enough, however, the two teams in the finals were the teams we had lost to unjustly in the shootout!

Jim Mirkopoulos

The II Hockey team finished the season with a superb performance in the Nichol's Tournament winning the consolation finals.

This long awaited success was only achieved after many troubles were overcome. The problem here was not our goaltending, since Adam Wharton and Paul Sadlon were both talented in net. The trouble was discovering those defensively minded players who could control the puck and cut down on our shots against.

This was achieved when Danny Stewart and Tim Comfort joined Trevor Fuller and Andrew Metcalfe on defence with Mike Armstrong moving up to the wing to become a formidable force. Once these changes were made we were on our way to being a tough team to beat. Now we could play patiently and wait for our offensive breaks.

And the breaks came largely due to the tremendous effort of our centers Mark Sheardown (MVP) and Jeff Rowan who could get the puck to the elongated Cory Oliver (MIP) or Alex Stein to score.

In this my first year at SAC, I could not have had a more enjoyable coaching assignment. I would like to thank each and every member of the team for the pleasure, fun and camaraderie they offered me this season.

Inspirational. Second swimming was just that this year. We began with a group of gentlemen who had never swum competitively. We finished the season not in first place, but, with that same group of gentlemen who each had worked spiritedly hard improved their individual times at each meet throughout the season. No more could ever have been expected. Each member left the pool a better swimmer than when he had first jumped in. As J.W. says "Let the clock be your god." If the clock was their god then they certainly did please it.

With all that I've written, it seems evident that each member deserves the MIP award. However, the team voted for John Clarke and Sean Kurian. Jason Bullen, our captain, was unanimously voted our MVP.

We'll be meeting again next year in our dungeon water pit. However, our future is brighter with the development of the new pool. We are all grateful to the school, the contributors and Jim Herder and his office for making this dream a reality. We look forward to breaking the first water!

Oh Yes, "Bosley" is grateful for his swimming lessons. The team was most patient.

Although this season's record is not really impressive, the individuals grew into a team that played every game with enthusiasm, spirit and effort. On the defensive side we were quite competent. Many opponents were effectively 'slide tackled' by a capable Sean McGrath or 'man handled' by Jayson Mulcock. Our MIP, Jose Arteaga showed tremendous ability and stability in the center back position.

We had a large reserve of forwards. Special mention must go to Jay Yoo and Matt Fraser for their talent and optimism. Bart Somerville showed great improvement in his abilities as a center forward. Our MVP, Adam Devita, was perhaps the hardest working and most determined player. A final word of thanks to our Captain, Matt Chisholm and manager Tony Chow who, at the lowest of times, provided us with inspiration!

The U15 Soccer Team skinned through the season with relative ease with easy wins of 9-0 on Ridley, 11-0 on Pickering and 10-0 on T.F.S. Hat tricks soon became passe for our forward stars; Scott Armstrong finished the year with 22 goals, Allstar McQuire with 17. Near the end of the season, McQuire twisted his ankle, Roman received a back injury and Kevin broke his collar bone. It was on the tournament day, that the final, ultimate robbery occurred. We licked the first four teams without too much difficulty. The final game - the first half ended scoreless, but with the start of a tremendous rainstorm which threatened to carry the soccer ball and the entire team directly into our net. U.C.C., riding on the wind, with the rain at their backs, flubbed a goal into a foggy, drizzled corner. We needed one goal to tie the game and win the tournament. One goal! One pathetic goal. Battling valiantly against weather, and the humility of Mark Shillum's hitting the goal post, we fought on, but in vain. Even with the superb goaltending of Tom Brooks, the championship was robbed from under our feet by the ultimate will of the weather gods. One goal - one pathetic goal.

The squad this year was small in stature, but big in heart. We managed an unusual number of tied games - against Appleby (twice), U.C.C. and Crescent - all challenging opposition. We lacked scoring power, but Jason Reid (MVP) was a very fine goalie, Austin Page and Paul Etherington capable defenders, Mike Kingston (Captain) and Josh Ginou (MIP) effective in midfield and forward. With four players still eligible next year, there is the core of a promising team.

The trip to Montreal for the annual Tournament was the highlight of the season. We won through to the championship round, narrowly losing 1-0 to the co-hosts and eventual co-winners, Selwyn House.

In addition to Mr. Ray and Mr. Swan, we were very fortunate to obtain the help of an excellent local soccer star, Paul Crombie, on a regular basis. We all hope this will continue next year.

The Under Fourteen Soccer squad was a great team to participate on this year. We had a shaky start, losing our first two games to UCC. Our next two games (Country Day and Trinity College) we won easily; from then on the U14 Soccer Team was virtually unstoppable. In our ten remaining regular season games, we only lost twice (to UCC and Crescent) and had two ties, one with Appleby, a team which is usually the strongest in the league, and one with St. Georges.

The team was graced by players such as the goal scorer Eric Monteith, the goal stopper Dave Burgess, the goalie Darren Mcfield, and Jose Sofres of mid-field.

In the final tournament, the weather, fields and nets were all against us and many of the teams that we had beaten in the regular season played better, keeping us out of the finals. Our record for the tournament was two wins, three losses and one tie. Many thanks to everyone on the team and especially Mr. Timms, who was a great coach.

The team started slowly, losing the first three matches. The boys rallied and proceeded to win six out of the next seven competitions. The season was capped off with a strong third place finish at the I.S.A.A. Tournament, just one match shy of the final. ## Under 13 Soccer Tournament

Once again, S.A.C. was invited to the Canadian Under 13 Tournament, this year superbly co-hosted by Selwyn House and L.C.C..

We reached the top 8 (championship round) after round-robin preliminaries (beating St. Michael's from Victoria and St. John's from Waterloo). In the later rounds, that standard of competition increased markedly. However, we did remarkably well, losing to highly-ranked U.C.C. and Selwyn House by 1-0 scores. The strength was in defence, with Jason Reid having an outstanding tournament in goal. Selwyn went on to share the trophy with Crescent in a 1-1 final.

All the boys were well-hosted and enjoyed the spirit of the competition as much as the games themselves. Montreal is a fun city which the coaches, too, had time to enjoy. Next year .... Ridley!

After many years of rule under the eyes of the legendary Geoff Smith, two rookie coaches, Mr. Shields and Mr. Rush, took the helm, and promised to take U16 Football where it had never gone before...

That's right, we won some games!! Could it be that we might even have a winning record? Well, almost. Apart from the traditional thrashing of Williams we won three (!!) of our eight games, and came mighty close in three others. All three wins were tight come-from-behinders. In the first game against TCS, we scored with six seconds left to snatch victory from the jaws of defeat. Another victory, over Ridley followed. We were hot!! We were unstoppable! We were just too good for words, we...

We went into a five game losing streak. The most heartbreaking of these was a Homecoming loss to Appleby on the last play of the game. However, some self-respect was saved with a final game win over TCS, 7-0.

## Under 16A Hockey

So near but yet so far! A season of highs and lows: three tournaments, two semi-finals but no championship. To lose in a shutout to the eventual winner of the ISL Championship was a major disappointment, but it brought the team together and showed that we were as disciplined, capable and competitive as any of the other teams in our league. With a large influx of Under 15 players this year it took us time to settle down especially as there were a number of boys who were also involved in town leagues. Nevertheless, we were able, at one time or another, to beat every other team in the league; but unfortunately, to balance this, to play for no apparent reason very badly on other occasions. Next season I would expect some players to make the senior school team. Hopefully, the many lessons learned both on and off the ice, and the many friendships made will remain with them. My special thanks to Mr. Dawson and Mr. Treasure for their unselfish and invaluable help and to Jeff Lessif who captained the team through a successful and exciting year.

This season began with a horde of young enthusiasts ready to hit the ice and hone hockey skills. The players were dedicated to practices and are to be commended for their desire and effort to improve their skating and puck handling skills. League play demonstrated that we had a very competitive team but the real test of the season began at our final tournament at TCS. Playing gruelling back to back matches we fought our way to the final, beating opposition from UCC and TCS only to lose to a tough Appleby team in the second period of overtime in a shootout. Hobbs was outstanding in goal and Andrews kept the forwards battling for goal scoring opportunities. Bedard entertained the crowds with spectacular checking at the blue line. The 1988-89 Under 16 Basketball team was a group that went through a baptism of fire. We certainly found the competition in the ISAA to be very demanding as our 3-9 record proves. However, as the season progressed, we had become much more competitive with our opponents such as Crescent and Hillfield. Therefore, we headed into the ISAA Tournament at Ridley in a positive frame of mind. We played with a lot of heart and determination with the final result being our capturing of the Consolation Championship.

## Under 14 Basketball

We had our share of wins and losses, Probably our weakest point was in the foul-shot department but our lay-ups and passing ability were quite strong. Some say that in order to play basketball well, you have to be six foot but it's people like Ben, Cyril, and Sharjeel who prove ability makes up for a couple of feet. You might also have been told that basketball is one of those "non-contact" sports. Just try and tell that to Jeffery Wong with his go-out-and-get'em attitude!

For most of the U14's this was their first year in an organized, competitive league. A few players, found out the difference between dribbling and drooling. The team produced quite an offensive line - David Burgess (high-scorer over all), Robert Keto,

The U14's really did have fun this year; friends were made, new skills learned, and a couple of games lost that we will remember for a long time. Finally, Mr. Somerville. The time and effort he dedicated to each game was phenomenal. In our worst games he never lost his humour or his faith in us and always encouraged those on the team who had. Thanks!

Although the Under 13 Basketball team was the most inexperienced and shortest in the league we still managed to give the other teams some competitive and exciting games. As the season progressed all the boys exhibited incredible improvement in both skill and attitude and should be commended for their team spirit and good sportsmanlike behaviour.

At the ISAA tournament, SAC played some fine basketball and managed to capture first place in the Free Throw Contest.

Special mention should be made for their outstanding play during the season of Austin Page, Paul Etherington, Mark Sinclair, Josh Ginou and Ian Cheung. Next year's Under 14 team will certainly have a lot of talent from which to draw.

It was a short season much interrupted by April showers. We played well against Crescent and deserved a draw until we allowed a player to run through eight tackles. Appleby beat us but I am curious as to which rules the referee was using and where he left his eyeglasses.

Then the season improved. We travelled to Ridley on a beautiful day and Rose controlled a tactical game to allow us to win by two penalty kicks to an unconverted try. Our last game at Trinity saw us play our best rugby, even though four players found other commitments which took precedence over the team. Trinity has the best team; everyone contributed in no small measure to the team effort and yet again they discovered that SAC is always good competition.

Alan Halstead.

This was definitely the strongest team SAC has fielded in the last decade. The season opened with two exhibition games vs Agincourt and Lawrence Park U16's; we managed to field all the players in the squad. Our first three regular season games against Crescent, Appleby, and UCC were competently won with scores of 16-0, 20-0 and 18-0 respectively. Although we lost to Ridley (4-9) in what was later decided an exhibition match, the highlight of the season was yet to come. TCS had a very large, unbeaten side, and we met on the final day of the season. Although we won 4-0, the score should have been much higher - we limited TCS to maybe six forays into our half. In that final week we played an exhibition match vs Oakville Trafalgar - one of the top teams in the province. Although they beat us easily, it was an invaluable experience for our team to play against such a well-disciplined side.

Many thanks to all the boys who played, especially those who saw little action but were so loyal in their support for the team. The season was enhanced by having Jamie Graham coaching the forwards and Mark Tawil the backs - two fine and dedicated 'rookie' coaches. Thank you. Having scored 58 points and none against in regular ISAA play, the success of this team augurs well for the future of rugby as SAC.

Although the Junior Squash team didn't have the best season score-wise, we did improve. We performed as a team and worked hard, but still had a great time at all matches. The I.S.A.A. Squash Tournament was enjoyed by all and the team showed great "winning isn't everything" attitudes.

The season started with a match against TCS. We had our only practice together as a team two days beforehand, and many members were not familiar with the rules. We lost, but Mark Etherington scored 14 points against them and John Ginou hit the first "6" of the year. We then had a game against UCC and much to our dismay, their coach brought two teams. We formed two teams of 16 and played with a time limit. Courtney Powers hit 41 runs to beat their score and we celebrated our first victory. We came second in a 6-a-side tournament, losing to UCC, but beating TCS by Liam Robinson's "right hand flick" run on the 2nd last bowl. We then went to Ridley where Mark Etherington finished the game with a "4", and then right after a "6" to beat their score of 70. We then went to TCS to lose quite convincingly, with our three heavy hitters only scoring a total of 10 runs. But Tom Hockin scored his high, with a "4" included; Paul Arhanic did the same, and Mark Maby produced well-earned runs. Thanks go to Mr. Josselyn whose skill and humour on and off the field were much appreciated by the whole team. HA!

It was cold this Spring. It was wet this Spring. And it was busy! While I dealt with Cadets for the first several weeks, Govin Permanand coached and trained the select few from Grades Seven and Eight who were to become the U14A Cricket team. Govin did a super job and when I came back I found the team more than ready to play ... thanks Govin! Under the leadership of Captain Jose Sotres, and Assistant Captain Mike Kingston, the team played well - losing only once to Appleby.

While we played as a team, there were individuals who stood out for their effort: Mike Kingston (MVP), Rob Keto, Paul Etherington, Josh Ginou, Austin Page, and Brendan Hooper were our top bowlers. Jose Sotres, James Nichols (MIP), Nick Tsioros, Mike Morgan, and Peter Wardell were steady batters. Joe Georgekish, Serge Zulqernain, and Daaron McField were outstanding as fielders. The fellows had as great a time playing as I had coaching.

This season saw a huge turnout of enthusiastic young hopefuls who worked hard to master the skills of the game. An exciting first game against a strong Appleby team was lost only by a close margin. This was encouraging, since practise on a well groomed wicket were severely limited due to the fact that it was under water for the early part of the season. Thank goodness for our new cricket nets. After a humbling lesson in good cricketing at the hands of UCC we came back to play a super game, with excellent fielding, solid batting and devastating bowling to beat Ridley on their own wicket with only five SAC wickets taken and an impressive 51 runs.

Many thanks for a strong season from bowlers Ward and Ramson. Two newcomers, Gillam and McNair, will probably make excellent bowlers on future teams. Sinclair proved to be a steady Captain and as our wicket keeper and most reliable batsman, earned the distinction of being this year's MVP. Jay Barron overcame initial batting jitters to improve his performance and so win the MIP award. Thanks to all for a fun season.

## House Plays

St. Andrew's Night spawned the traditional House Plays. Flavelle opened with *Frankie and Albert* set in a colorful tavern, though the director, David Bradfield, had to stand in as a barman for Steve Cathcart who dislocated his shoulder. There was a gaggle of Flavellians having no difficulty interpreting different stages of intoxication, while the Rappers led by Anthony Sam stole the show. Cory Oliver and Rob Savage displayed passion as the lovers of the title, with Rob winning an Acting award from our Andrean adjudicator Mr. Warren Stoddart.

Next up was Sifton House the Cup-holders with *The Little Gentleman*, Mark Tawil directing. The actors showed their individuality, enjoying themselves as they hovered around Daniel Thwaites, typecast as the Little Gentleman. As Dora, Courtney Powers won the award as Best Actor of the evening.

New House staged the world premiere of *The Quest of Shaolin*, revolutionizing our house play stratagems. In desperation time in the last week Chris Mantrop and David

Foster wrote an original show, solving the perennial problem of line learning by having all the voices off stage, with the actors as mimes on stage. But the actors made up in action what they lacked in speaking, oscillating round the gymnastics of Matt McPherson who proved why he holds a black belt at Tai Chi. This was a most exciting show, and the audience would have lynched the adjudicator if he had not awarded it the Best Design and Best Play trophies.

Lastly, Memorial House presented *Out for the Count* - the count in this instance being the leering Ted Kang Dracula. The plot was ridiculous but the acting was potent, with both Sean McQuillan and Matt Brown winning Acting awards - and Wilf Dinnick won as Best Director for avoiding collisions on stage.

A program note says that Ramsey House will present a play at a later date - perhaps next November when a former star of Ramsey, Adam Neal, will be doing the honours. Congratulations to all who gave time and imagination to a dramatic and exciting evening.

## ISL Drama Festival

This festival was celebrated by twelve schools at Trafalgar Castle School over three days in April. It alternated between one-act plays and workshops on everything from voice to mime, from characterization to stage-fighting.

We were given the honour of staging the final show in the festival - *The Great American Cheese Sandwich*. This play is a satire on traditional pioneer values. Jon Hart was Father, complete with pitchfork and country accent; Rob Savage was a big Mother who showed big emotion; Toby Ross played the pregnant Betsy, Todd Mank footballer Tom, and David Bradfield the photographer, Mr. Wiggins. Backstage, Sean Nazerali, Rob Hobbs, Jay Yoo and James Wang made up an enthusiastic team.

The Adjudicator was full of praise: "very funny", "beautifully done", "good sound, costumes [thanks, Mrs. Ham and Mrs. Rulli], props", "rivetting", "audience loved this" ... In particular he complimented Todd and Rob for their powerful acting.

It is a great pleasure to be involved in a creative enterprise with such a responsible and happy and tuneful troupe. But to prevent the cast from becoming big-headed, they were booed off the SAC stage by an insanitary audience on Talent Night.

## Lower School Night

The combined forces of Macdonald and Laidlaw Houses put on a Lower School Entertainment in the second term. In previous years this was wild and woolly, but Mrs. Nancy Hurley directed it into an hour of quality performance.

We listened to the Grade Nine Band, and we saw Gregor Gillam as Charlie Brown and a classroom scene from *Up the Down Staircase*. Tim Horton and Mike Boyer showed their musicality on trombone and trumpet. We had a bloodthirsty gang from *Treasure Island*, and *Something Completely Different*. Tom Hockin and Karl Milroy challenged with the famous "Who's On First?" routine. Terry Kerr, Angus Lang & Danny Nelles attacked the audience with *Revolver*, and Douglas Keller, Jay Barron & Anthony Farr recreated Calvin and Hobbes - guess the tiger!

One highlight was certainly the Ping vs Pong game played by Doug Chambers, Jason Mulcock & Patricio Ramos, with the ball defying Newton's ballistics with the help of a black light. With James Brown & Chris Thompson as M.C.'s, and strong support both behind and in front of the stage, and refreshments following, it all added up to a skilful and happy evening.

## Expansion Week

Expansion week in November saw students involved in a variety of activities.

Grade Seven students had their own programme; Grade Eights went camping at Norval; Grade Tens took part in Community Service and Grade Elevens explored a variety of careers through guest speakers and visits to places like the Stock Exchange.

The other grades had a choice of projects which included art, aviation, law, medicine, or science fiction. Grade Thirteens looking ahead to next year could elect to visit universities.

Some students from these grades chose to travel - tours to Chicago, Ottawa, Quebec or England took place this week.

## Guest Artists

S.A.C.'s Enrichment Programme has brought many performers into the school. This year's visitors included the Graphic Mime Theatre [above left] and Paul Brodie, "Mr. Saxaphone" [above centre]. Other groups included Theatre Direct, Caroussel Players, and the Jim Galloway Jazz Quartet.

In the spring, W. P. Kinsella [above right] spoke to the students about writers and writing. Interest in his visit was heightened by the recent release of the movie *Field of Dreams*.

## SAC in France

There is only one way to describe the SAC in France programme ... "French"! This was the comeback I came up with after my return from France for the simple question, "What was it like?"

Why did I put up this front? Simple. It is impossible to even begin to tell about my 'exploits'. France gave me, as well as the others who went, our first real taste of independence and life in the real world. I often think back to the day Paul and I arrived in St. Malo's train station. There was no one to meet us; it was cold and raining. This sad weather was soon put aside by the warm reception I received at my new 'home'.

The family that I stayed with began to feel like my own parents with their soft laughs and always open arms. Through the course of my stay I witnessed a baptism, a child birth (wow!) and the launching of an oil tanker. Some of the many sights I was shown were Mont St. Michel, Fort National and the leaving grounds of Jaques Cartier.

If being in France has done anything to me, it is the fact that I now can truly appreciate how lucky we are to live in a country such as Canada. It has also shown me a different world, a different culture, a different life. Whether you go in first or second term is up to you, but no matter what the season you will always be welcomed in 'La Belle France'.

# Community Service

We have had a very productive year with up to 150 boys participating in our program. It would be very hard to name the boys involved in this activity for two main reasons: there have been many dedicated students, and we feel that this type of service gives us our own rewards and would prefer to remain anonymous.

Examples of our projects this year:

- inside and outside work for seniors who are trying to stay in their own homes, and friendly visits to these people as the year progressed.
- work with the physically and mentally handicapped children in Sarnia
- work with our friends and Yellow Brick House - fundraising, practical work and food distribution.
- canvassing for the Salvation Army, the Heart and Stroke Foundation and the Cancer Society.
- extensive work with people in the old age homes of our area.
- work with the Scott Mission, New Dimensions and the CNIB

To all of my friends, the school and Mr. Robinson, thanks for a most successful year. Hopefully we can do even more for our community next year.

R. Jones

## The College Choir

The choir maintained a tradition of excellence throughout this year. Having been given new vestments through the generosity of the Lloyd C. Macpherson Fund, it developed a sound which complimented its superb looks.

This group won first place in the Boy's Choir class at the York region Lion's Music Festival with a score of 88. In his adjudicator's report, Mr. Ross Metcalfe praised their clarity, discipline, and their bell-like tonal quality. It has been an extraordinarily busy year for choral pursuits. The following are highlights from the season:

December

- Carol service at St. Paul's Church
- Carolling at the Shoppes of St. Andrew's Village
- Lightbound/Wilson wedding at the school chapel

February

- Benefit for the York Region Heart & Stroke Foundation
- Choral workshop at Holy Trinity School

April

- Independant School Music Festival at R.T.H.
- Sunday service at Aurora United Church
- Cadet Church Parade at St. Paul's Church

May

- Lion's Music Festival
- Cadet Inspection

In addition, anthems were sung in regular school chapel services and special pieces were prepared for the Cadet Inspection and the Ladies' Guild Luncheon. Once again the Independant School's Music Festival was attended and *O Canada* was sung (en francais) at the Macpherson Hockey Tournament. St. Andrew's is proud of these dedicated young men.

# Debating:

## A Year to Remember!

Yes, this was a year to remember. Our Debating Society was blessed with an exceptional graduating class some of whom had built up five years of tournament experience. In overview, these were some of the achievements:

- we placed first in the spring Fulford and over the whole year stood third out of the seventeen member schools;
- we witnessed the growth of bilingual debating and we sent a four man contingent to the Provincials, two of them debating exclusively in French;
- we hosted a major tournament to which we invited many schools from the suburban region of Toronto.
- we saw several of our students achieve distinction in public speaking, one being invited to represent Canada in London, England.

The success of a year cannot however be measured solely by the exceptional, the glittering achievements. We maintained a full schedule of engagements at home and abroad throughout all three terms. Regularly, on Tuesday evenings a dedicated group of members would meet in the cosy comfort of the Tuck Shop. President, Kevin Worry and Head of Debating, Mr. Rupert Ray, worked to co-ordinate the efforts of an enthusiastic executive.

Chris Mantrop worked to present the profile of debating at home around the theme: "Debating - Feel the Power!" Few will forget the comical assembly that he and Will Hill presented as if they were commenting on a W.W.F. bout! There were days of intramural and house debating in each term.

Curtiss Boyington and Sean Nazerli ran an instructional junior programme and brought on a whole flock of promising new debaters from Grades Eight and Nine. Robert Meinzer was instrumental in co-ordinating the O.S.D.U. Tournament here. Contributions were made to the executive by Damian Brooks and Rod Boothby. Thanks to all and to occasional secretary, Patrice Banska.

In Term One, our Fulford Debaters were Scott Bryk, Jon Morgan and Mark Tawil with support from Hugh Barton. The intermediates were D'Arcy Montgomery, Courtney Powers and Elyot Waller. In addition there was an early event at St. Clements and a social with St. Mildred's-Lightbourn. On two weekends when Mr. Ray was travelling with his soccer team, other members of staff helped out; Rev.

Bob Arril took a van load to a cross-examination workshop held by O.S.D.U. in Gananoque, and Mr. Stephen Harper sponsored our three man team to the International Public Speaking Tournament for independent schools held in Montreal.

In Term Two we were chiefly preoccupied with preparing to host our tournament; many parents and friends of the school contributed their services as judges. A particular word of thanks must go to Mr. John Morrissey. Our competitors were Rod Boothby, Sean Nazerli, Michael O'Connor and Kevin Worry. Sean and Kevin qualified to go to the Provincials in English, and in a separate competition held in Toronto, Allan Best and Liam Robinson qualified to go to Sudbury, competing in French.

Our senior Fulford team consisted of Damian Brooks, Robert Meinzer and Daniel Thwaites with Rod Boothby as the back-up man. The intermediates were Paul Arhanic, Allan Best and Ian Michael. In addition, this term we attended a tournament at Toronto French School and held a social engagement in French with Havergal College.

Term Three was undoubtedly the busiest of the year. There were social engagements with Trafalgar Castle, with Fr. Henry Carr and with Nichols School of Buffalo. In Public Speaking, Sean Nazerli won the Bronze Medal at the Winston Churchill Tournament held at Hart House in Toronto, and

Sean Collins came first in a tournament at T.C.S. As a result of his performance in Montreal, Kevin Worry was invited to be part of a four person delegation representing Canada at the Speaking Tournament sponsored by the English Speaking Union in London.

On the Fulford front, this was the term when we outdid ourselves. Our team of Chris Mantrop, Sean Nazerli, and Kevin Worry with the assistance of Curtiss Boyington came first, and this pulled us into third place over the whole year, our best finish in several years. Our intermediates were Tim Morrissey, Michael Worry and Cyril Yee.

MR. SPEAKER,  
I'D LIKE TO RISE  
ON A POINT OF ORDER  
DAMMIT!

## DEBATING: FEEL THE POWER

There were other things going on during this term too. We sent two entire delegations to S.O.M.A., a model United Nations where we represented Spain and Italy. During this term we took advantage of all the chances there were in order to bring on a crop of debaters whose job it will be to fill the shoes of our Grade Thirteens. Of particular note, are Stephen Rotstein, Alistair Cowper, Wilf Dinnick and Ron Kopas. In addition we look to Thijs Spoor, Marcus Yang, Blair Leggett, Scott Mahaffy, Doug Walker, Michael Drolet, Shane Manning and others.

During this term, Mr. Ray represented us at the National Seminar of the Canadian Student Debating Federation held in Regina, Sask. Here he was re-elected to the Board of Directors of this organization which co-ordinates student debating across the country. Our thanks to him for serving with unflagging enthusiasm as our coach, chauffeur, advisor and friend.

So it can be seen that this was indeed a year to remember. With affection and appreciation we say farewell to our departing seniors. With optimism we look forward to what lies ahead. *Debating - feel the power!*

**PET PEEVES:** Deadlines, Grad comments

**ACTIVITIES:** I Photography, II Computers, I Nagging (MIP)

**SAYINGS:** "This book will be finished by the end of June.", "No more colour pages!", "... and they called me on that too."

There must be an extra three hundred boys here, there are so many teams, trips, and activities to record. Sort by houses, clans and grades ... put a three dimensional life into two dimensions ... freeze time. This year, again, there were lots of photographers out and about; without them there would be no colour to the year. Many thanks to those who recorded happenings in words; they gave the year depth. Those who helped put things in order helped give the year perspective. Hopefully, as you leaf through the pages, you will enjoy the pictures from the past 90 years at St. Andrew's, and you will recall moments that remain special to you.

# Chairman of the Board of Governors Prize Day Speech

Mr. Headmaster, Platform Guests, Ladies & Gentlemen, Gentlemen of the College:

On behalf of my fellow Governors, Welcome to this Prize Giving Ceremony.

A glance through the programme would lead to the conclusion that today is an occasion to honour superior academic performance.

It is that, to be sure, but this is done in recognition that the real challenges, and the real rewards are a rather more private affair. They lie within each boy, and they may, or may not, have the visibility to the out-wardly acknowledged today. This day, then, is really the celebration of all those personal challenges, personal triumphs, and, yes, personal "stumbles" that go to make up a school year.

The prizes for those efforts cannot be bought, and cannot be sold! They are the quiet confidence in self that grows from meeting, and ultimately surmounting, personal challenges! They are the "stuff" which St. Andrew's aspires to develop in every boy! This is the challenge that drives our superb academic staff. It is that extra

time and effort with a group of boys, or a single boy, that makes the difference. You are terrific! We stand in awe of your commitment to the ideals of St. Andrew's.

Col. Tetlock and his administrative staff are committed in their way to this cause.

Jim Herder and his development team work to see that we shall have the tools for all our tomorrows.

We have volunteers with great commitment. The Ladies' Guild, the Association, the trustees of the Foundation and so many individuals who help in so many ways.

Boys, how lucky you are, and you know it, to have parents who care so much! They make it possible for you, and collectively, for the school.

We have a Board of Governors whose commitment of time and resources is exemplary. You may note two construction projects going on, which is no ones idea of ideal timing, by taking place simultaneously to meet the school's needs.

It is because of the Governors' support, and only because of it, that we could commit to filling these needs.

We have a Headmaster who orchestrates it all. In his quiet way he leads us, always with dignity, always with warmth, and always with wisdom. He is, in his every hour, all that we would have an Andrean be!

And finally, we have the reason for it all, the object of our affections, a great group of boys who give us so many reasons to be proud. And a graduating class that any school would love to claim!

To all of you ... St. Andrew's has never walked taller. Those who have gone before you and who love this school and all that it stands for, just as you love it, cheer you on!

May St. Andrew's College be greater yet! Thank you all!

## ST. ANDREW'S COLLEGE ASSOCIATION

Year representatives are appointed from each graduating class and they are primarily responsible for keeping contact with the school, helping with reunions, and running Old Boys' annual giving.

In the photo, Jim Herder '64, Director of Development and Alumni, meets with some of the '89 grads who asked to be considered as "Year Rep." Final selection was made near the end of May, and Rod Boothby, Curtiss Boyington, Will Hill, Mike Ross and Mark Tawil were named as the Reps for the Class of '89.

The St. Andrew's College Association began as the Old Boys' Association in 1904-1905 under J. L. Ferguson, its first President. Current President is John F. Housser '68, an investment councillor with Pemberton Securities in Toronto.

The Association now also includes parents and past parents, plus friends of the school. Representatives from each group are appointed to the S.A.C. Association Council, which meets periodically throughout the year.

The Association Council co-ordinates Homecoming in the Fall and the Association Dinner in the Spring. As well, the S.A.C. Business Club was launched in 1986 to provide Andreans with a forum to meet and exchange ideas with Andreans in similar or vastly diverse careers. The Business Club Luncheons are presently held three times each year.

Jim Herder '64 is currently Secretary-Treasurer of the Association, a post he took up in September 1985. He was President of the Association 1979-82, a position which was also filled by his predecessor, Jim Hamilton '33, between 1948 and 1950.

Bill Triest '48, right, visited the school from his home in Uruguay - for the first time in forty years! Jim Hamilton '33, left, opened the Association office in 1965 and retired in 1986. He entered S.A.C. in 1928 and the school has been a big part of his life ever since.

## Ted Harrison

At the end of the school year we are having to bid farewell to one of the pillars of the St. Andrew's community for the past twenty-one years. Mr. Harrison has certainly left his mark on SAC during his many years as a teacher, coach, Housemaster and Department Head. Mr. Harrison joined the SAC faculty in 1968 and quickly became involved in his true love of sports. He brought to the school an expertise in soccer and cricket which translated into some of the most successful Under 15 sides the school had ever seen. He also developed a love for a sport which he had little experience with, namely hockey. One could also find Mr. Harrison every January and February after school barking instructions from the snowbanks. In the classroom, he insisted on a high standard of behaviour and commitment from his students. Unquestionably Mr. Harrison shall be remembered most for his stint as the Housemaster of Macdonald House from 1970-1987. During the early days he worked endless hours to transform the residence into a setting where the boys would have more peace of mind to carry out their daily routine. Similarly he and his wife, Kathleen, devoted much time to the care and counselling of boys and parents alike. He again demanded that the boys show proper consideration and respect for each other. The standards set were those which any Andrean should strive for. The school has suffered a loss with Mr. Harrison's resignation and we shall always remember him for his service. We wish both Ted and Kathleen a healthy and prosperous retirement.

## Nancy Hurley

There is a quality to the number Seven. It is a prime number, the number of the days in a week, the number of stars in the Big Dipper. It is also a span of work, for creating a world or earning a sabbatical leave; Jacob in the Bible story had to work seven years to win this wife Rachel - and then had to work another seven when he was given the wrong sister! So it is not surprising that Mrs. Hurley has decided to move on after seven years of quality work at St. Andrew's College. Her husband, Dr. Patrick, is moving to Edmonton to take over a chiropractic practice, so Nancy is literally going west.

We shall miss her in the English Department where she has counterpoised the macho instincts of several men and many boys. She is the complete professional in the classroom; her lessons are fully prepared, her teaching is articulate and sensitive. The display boards in #24 have inspired us all. Behind the scenes, in department meetings, in exam setting and marking, in preparing course materials, she has given her services generously and punctually. Who will now carry the gospel of The Hobbit? Coming from Iowa, she had us all reading The Iowa Baseball Confederacy! We shall miss her in all the other areas of SAC life. Doing duties in the Houses and Library, tabulating scores in the van on Track & Field Day, coaching fitness and cross-country skiing and tennis, challenging the assault course at Base Borden- these tasks and countless others she has accepted in her own special style and enthusiasm. Her special interest has been in dramatics where she is a make-up wizard; in junior plays, house plays, festival plays and community theatre in the summers, she has happily offered hundreds of hours of her energies to let others enjoy the spotlight. The past two years she has used her voice skills on Cadet Inspection day to interpret the cadet manoeuvres for non-believers.

But it is as a colleague that the members of staff will miss her most. There is so much that she volunteered to do for our small community; she would lead committees, arrange gifts, organize Christmas parties and direct the entertainment; and in everything that she did, she made our lives easier and happier. Who could ask for anything more? She and her husband carry west with them our thanks and our very best wishes. The hurlyburly is done!

## Reinhard Kranz

It was with regret that we heard that Reinhard Kranz had decided to leave the school to gain further experience in another educational establishment. Mr Kranz majored in English at university, but after teaching two years in Nigeria, he felt that perhaps he should gain some knowledge of computing. Mr. Kranz has led the Computer Science department with flair, competence and imagination. In all that he has done, whether it was coaching volleyball or cricket (a game which he fast had to learn), or studying science fiction with a group of students during Expansion Week, or serving as Commanding Officer of the cadet corps, he has demonstrated a caring, concerned and dedicated professional attitude. We shall miss Reinhard's sense of humour. We shall miss his wife, Janet, and their two children, Jennifer and Cathy. We wish them all well.

## The Headmaster's Prize Day Speech

This is, and has been, a special year at St. Andrew's - It's our 90th birthday! Much has been undertaken and achieved to celebrate this event.

The word 'development' has become part of the daily vocabulary of our school. Its dimensions encompass (one) land development to our North, (two) structural development of the Pool and Art complex adjacent to the gymnasium, (three) professional development, which includes an evaluation of St. Andrew's by the Canadian Educational Standards Institute and (four) more bricks and mortar with the construction of a new sixplex to complement the teachers' housing.

But surely our most vital development is a fifth dimension, you, the students of this school. This fifth dimension is the focal point of all these efforts.

Your school is guided and richly nurtured by its Board of Governors, a fact which you, the students, will realize more fully as your association with this school progresses and crystallizes. This year's governors have provided incredible support and generosity and I wish to thank them for this. I should like to add my special thanks to Peter Harris, Chairman of our Board, for his superb leadership and also for his unfailing commitment of time and wisdom. Much of this development to which I have previously alluded is made possible by this Board and its Foundation, headed by Mr. David Dunlap.

This 90th year has been special because of the unified efforts of the Old Boys' Association and the Ladies' Guild in staging our 90th Birthday Party. This event reunited many generations of the Andean community and raised a substantial sum for the benefit of the new complex. Furthermore, this party was a huge success.

The school has been very fortunate in having John Housser as the President of its Old Boys' Association. His efforts and his supportive presence have been much appreciated.

At this point I should like to thank Mr. Jim Herder for his work with the Foundation and the Association, including the Ladies' Guild. As the Director of Development, Jim is creatively unique and his enthusiasm for all things Andean is boundless.

We've already been serenaded by our new chimes; they represent one of the many contributions of the Ladies' Guild.

Under the leadership of Mrs. Sonia Chin, the mothers of the Guild outdid themselves. They completed a project dear to our students, the renovation of the various common rooms; they increased their scholarship support; cared for the senior citizens on the occasion of our drama productions; updated the *Contemporary Literary Criticism* series for the Library; helped finance the repainting of the Library and organized a series of lectures and workshops on social issues. All this was in

addition to their efforts on behalf of our 90th Birthday event.

In the course of this year, the school underwent a comprehensive evaluation which will next occur in 1996. For the better part of six months, the teachers, under the able direction of Mr. Derek Inglis, our Director of Studies, conducted a self-evaluation into every aspect of our programme. A report was submitted to the Canadian Education Standards Institute and a team of ten carefully chosen evaluators from other independent schools and from the university ranks descended upon us in late April. They spent four days with us, interviewing teachers, students and various members of our community. Their draft report has just reached us. Overall, it is most complimentary, yet the importance of the report for St. Andrew's lies in its recommendations. These will be studied carefully, and modifications will be made where appropriate.

I am indebted to the Assistant Headmaster, Mr. Peter Stuart, and to the entire staff for their unselfish devotion to the students, be it in the classrooms, on the playing fields, in the houses or in our many para-academic activities. And I'd like to thank each of them for their personal support.

In the evaluation report, particular commendation was directed to the school's appearance, its upkeep and its services. The man responsible for all this is Mr. Howard Tetlock, and we all extend our thanks to him and to the people on whom he relies.

Two special awards have brought honour to the school.

The Washington based Council for Advancement and Support of Education reviewed upwards of 80 promotional film and video submissions from universities and from independent schools across North America. It granted the gold medal to St. Andrew's College for its historical video, *Quilt Ye Like Men, Be Strong*. This video, authentically and humorously, depicts the school's history from its earliest days in Toronto in the 1920's to the present time. Congratulations and thanks to three Old Boys: Mr. Charles Edwards, Mr.

Rob Parker, and Mr. Jim Herder. What a tremendous accomplishment!

Closer to home, the St. Andrew's College Choir won first prize in the Boys' Choir Class of the Lion's Music Festival for York Region with a score of 88%. The adjudicator praised the group's tuning, precision, discipline and clear, bell-like tonal quality. Well done boys and Mr. Harper.

Under the aegis of our Enrichment Programme, our students were treated to performances by Jim Galloway, the Graphic Mime, the Carousel Players, Paul Brodie, Theatre Direct and a French play, *Tete a Tete*.

As an adjunct to this program, two boys launched The Fine Arts Society. Its members, totalling some 75 students, attended such performances as *The Great Circus of China*, *Cats*, *The Magic Flute*, *Les Misérables*, and a recital by pianist Mitsuko Uchido. Reservations have already been made for *The Phantom of the Opera* early next year.

An expanded Drama program brought a major production to each term. It was an unforgettable *Hamlet* in the fall, the successful musical *Anything Goes* in February, and the farcical *Dogg's Hamlet* in the spring. Additionally, a one act play was presented at the Independent School Drama Festival.

Our Debating Society was blessed with an exceptional graduating class, some of whom had built up five years of tournament experience. We placed first in the Fulford League Tournament this spring, and over the whole year stood third out of the 17 member schools. Four of our students won the right to go to the provincials, two of them debating exclusively in the French language.

In Public Speaking there were two special accomplishments: Sean Nazerli won the Bronze in the Churchill Medals held in Toronto, and Kevin Worry recently returned from London, England where he was one of a four-person team which represented Canada in competition at the English speaking union; Kevin is the third St. Andrew's student to be so honoured in recent years.

Turning briefly to sports, a record 50 teams in 19 disciplines represented the school during this past year. The majority of our teams sported a winning record and were the victors of many tournaments. Of special note are the ISAA championships in Squash and in Golf at the first team level. Congratulations also to our Track & Field teams for their outstanding performances.

It seems that each year brings with it the loss of a few members of our school community.

Mr. Ted Harrison is retiring after 21 years of dedicated service to St. Andrew's College. These past two years, Ted headed our French Department with competence - but it will be for his 17 years as Housemaster of Macdonald House that he will be best remembered. There, with the assistance of his wife, Kathleen, he launched the school career of

1300 Andreans. His demanding standards were based on values of the highest quality, thus outlining a superior way of life in the everyday actions of our students. We thank you, Mr. Harrison, for your unflinching dedication and sense of fair play.

Seventeen years ago (1972), Dr. Coulter extended to me the privilege of sharing the school secretary, Mary Lloyd, to help me in my duties as one of his assistants. Nine years later, upon my appointment as Headmaster, Mrs. Lloyd agreed to become my secretary and began a rewarding eight year association. Just about everyone present today has had occasion to hear her pleasing voice, to appreciate her sensitivity and her impeccable savoir faire. Mary managed the office, dealt with all the details associated with enrolment, with SAC in France, with innumerable communications and with the whims and fancies of her immediate superior without ever showing any signs of the pressure-cooker situations with which she was 'coping.' Mary will be sorely missed.

In November of 1981, a lady with a distinct Southern accent joined us as a temporary replacement in the English department. She made such an impression on everyone that at the earliest opportunity we extended an invitation to her to become part of the Faculty of the College. We are saddened to hear of Nancy and Patrick Hurley's decision to relocate in Western Canada. Nancy's contributions were varied, numerous and meaningful. It could safely be said that she exemplifies a Renaissance Woman. Thank you Nancy!

It is an accepted fact that St. Andrew's College has been at the forefront of Computer Science teaching for the past two decades. The developments in this technological field demand constant vigilance, updated skills and superior knowledge. These attributes were present in one man who is leaving us after five most productive years. Under Mr. Reinhart Kranz' leadership the number of computers in the school has surpassed the 100 mark and, significantly, the majority of our masters have become pseudo-experts in that field. Furthermore, this past year, Mr. Kranz was the Commanding Officer of our Cadet Corps and any moment now we expect to hear that the Strathcona Cup will return to its rightful place. Reinhart, thank you for your contributions.

In 1985 the school availed itself to the services of a catering firm. Its first manager - who became a friend to all and who greatly enhanced all aspects of the Dining Room - retired at the beginning of the March Break. We would like, at this time, to recognize Mr. Ernie Fireman and to thank him for improving the quality of life at St. Andrew's.

Two years ago, we were fortunate in attracting Mr. Tony Salema to the Math Department. The students from grades 7 to 12 appreciated Mr. Salema's kindness and patience. He made himself readily available for extra help

and discharged all of his responsibilities with professionalism. Tony, our very best wishes accompany you to South Western Ontario.

The composition of the Math Department will undergo another change. Its most recent member, Mr. Milan Stehlík, will be leaving us. He brought a thorough knowledge of higher mathematics and computer science to the academic stream of the school and he introduced Winter Tennis to a number of our students. Our thanks to Mr. Stehlík.

Every attempt has been made to find suitable replacements for the seven persons mentioned above. Needless to say, the task is onerous. Yet I am confident that the newcomers - some of whom are already in place - will help us forget the losses suffered. I am happy to announce the following additions:

- 1) Mr. Philip Day, a very highly regarded teacher and administrator in both the independent and public school systems, will assume the headship of the French Department.
- 2) I should like to introduce you to my new secretary, Mrs. Gayle Petri.
- 3) Mr. Hoad-Reddick will join the English Department.
- 4) Mr. Arthur Wenk will join the Math Department, along with Mr. David Gaertner.
- 5) Already hard at work, and appreciated by the students and masters alike, is Mr. Michael Illick, our new manager of Food Services. Shortly, the Computer Science position will be filled.

And now for a few words that apply particularly to the graduating class.

This year, St. Andrew's College sends forth a strong contingent of poised and gifted young men into the world of post-secondary study. A scant four or five years earlier, the soft contours of their youthful faces and their diffident, gangling manner, held the merest hint of what was to come. They were, in fact, the picture of uncertainty.

Today, toughened by their school experience, they have changed. The baby faces are gone. There is a resolute character about them, a focused determination. They exude a developing quality of excellence in leadership: decisiveness.

In the past few months, these men have had to wrestle with decisions which they know will alter the course of their lives. The selection of universities and programmes involved

varying degrees of struggle; for many, it is a somewhat protracted agony as they attempt to match their hopes and aspirations with the offers of admission which have now begun to arrive. A 30% increase in enrolment in post secondary education in the past ten years has led to a proliferation of programmes in the 70 degree granting institutions in Canada. Admission requirements have become intensely competitive. The prospective student is faced with a labyrinth of subject prerequisites and escalating minimum achievement levels. Poor decisions in terms of programme or career path can be costly and painful. At this juncture, decisiveness is not a given. It is a hard-won attribute.

Aristotle remarked that the distinction between the workman and the master craftsman was that while both knew how things were done, it was only the master who knew why. So it is that the authentic leader or master craftsman is someone for whom ethical behaviour is of utmost importance, someone whose projection of inner conviction is inspiring and infectious, someone whose decisiveness can generate in people a new sense of values.

It is scarcely surprising that more universities are now asking for personal profiles of students. Such information about extracurricular activities, hobbies and interests is sought to balance the unfairness of selection based exclusively on marks. The universities want leaders who will be outstanding in their specialities. They are on the forefront of awareness about such complex problems as rapid population growth, economic development, and environmental destruction. Admission policies are beginning to reflect the conviction that in any profession on the eve of the twenty-first century, leadership will be measured by a commitment to master-craftsmanship.

The excellence of any educational institution, including this one, is determined not by academic proficiency alone, but by the quality of decisiveness exhibited by its graduates. It will be their decision to give of themselves - their keenness of mind, their energy, their skills. We have seen that quality of their decisiveness in their lives here, and we rejoice to send them forth as our representatives.

You, the class of 1989 have been a united, constructive and enthusiastic group, and on a personal note, I should like to say that I will hold fond memories of you. *Bonne Chance!*

# Head Prefect's Prize Day Speech

Mr. Chairman, members of the Board of Governors, Mr. Headmaster, members of the faculty, guests and fellow students. It is indeed a privilege and an honour to stand before you today and speak on behalf of the 1989 Graduating Class.

This year has finally drawn to an end and another batch of Andreans is being thrust into society. We who are leaving S.A.C. today will no doubt be facing great changes in our personal lives just as the world is changing before us, even as I speak.

Two new words have crept into our language in the past 18 months: Glasnost and Perestroika! China, representing 20% of the world population, is on the brink of civil war. The Ayatolla Khomeini is dead. Solidarity just won the election in Poland. Canada and its neighbor to the south have recently sealed a pact which will make them the largest trading block in the world.

We, the graduates of St. Andrew's College, are the leaders of tomorrow. As such, it is our responsibility and our duty, to study and understand our changing world. The world that we will command will bear little resemblance to the world of our parents. Judging by the events of today, we have an awesome task in front of us!

How, you may ask, will we prepare for the future? The next step in the educational process, university, is definitely part of the answer. Future changes that face us will come from advancements in technology and science. An understanding of the social sciences and the humanities will be critical.

However, we have a head start on the wonderful journey of life. In this world of constant change, we have been tempered by the unwavering values and traditions that are St. Andrew's College. May these never change!

I come from a small island nation, The Bahamas, which through the years has sent more than sixty students to S.A.C. I feel that I am also representing them here today. They have all made their own individual contribution to my country. In my capacity as your Head Prefect, I have had the opportunity to meet and to know many S.A.C. alumni, young and old, and I have yet to meet a St. Andrew's man with whom I would not be proud to be associated.

To the undergraduates, we can confirm that participation in some, or all, of the programs available here to you at S.A.C. is tremendously important and is an essential part of your school life. For those who are not inclined to participate as much as others, do not despair. Just by being here, one is strengthened by the friendships, the associations and the entire atmosphere that is S.A.C. The old axiom holds true; the more that you put into this community, the more you will take with you when you leave.

A great wit once said that "if it were not for our parents, we wouldn't be here". Well, I suppose there is some biological truth to that statement. Although when I asked Mr. West in Grade Nine Health, I did receive a somewhat vague answer. Leaving that aside, however, I suggest that if it were not for our parents, we would not be here at S.A.C. Some of you dads here today were fortunate enough to attend this school. You knew of the experience that awaited your son. Others, like my dad had to go by recommendation and a lot of faith. In my own case and I am

confident that I speak for the entire student population, I would like to say a simple thank you Dad, thank you Mom, for affording me the finest all-round education possible today. Thank you for giving me the opportunity of attending St. Andrew's College.

Ladies and gentlemen, I would like to recognize the unheralded heroes of S.A.C. The faculty and staff. Without their interest, their concern, support, patience and understanding - we could not be where we are today and would not have the most beautiful campus that many have ever seen. There are none finer than these people and we appreciate all they have done for us.

The year 1988-89, for me, will stand out as certainly the best year of my life. It has been an honour to serve as your Head Prefect and I thank all the students and faculty for giving me this opportunity. To my fellow prefects, it has been a great year and I thank you for your support and dedication to the job. As a group, St. Andrew's will miss you!

Finally, I would like to thank all those who gone before, who have sat here on Prize Day in years gone by. I thank them for maintaining and protecting the traditions that have made this school the great Canadian institution that it is today. S.A.C. will always be part of each and every one of us who are graduating today.

As we go now, I hope we will never forget our strong school motto, "Quit Ye Like Men, Be Strong." We came here as boys; we leave here as men. But not just ordinary men. We leave as St. Andrew's men.

Actually my three years had turned out much better than I thought it would. SAC not only gave me the tools to succeed, it enriched my life as well. However, if my parents hadn't forced me to come, I wouldn't be here. I am glad that they did; it's been worth while. I would like to thank all my teachers, tutor and housemaster for their help and support. John, thanks for making me lose some brain cells. Oscar, thanks for letting me beat you in 21. Life at St. Andrew's has been quite an experience. When I got here in Grade 11, I didn't know what to expect. I soon realized that I had been given an excellent opportunity, and I should make the most of it. I will take this opportunity to thank some people who had a real effect on my life at St. Andrew's. Mark Lopez, my roommate for 2 years, who made me see that the Caribbean isn't that bad a place. Jon Hart, for participating in many highly controversial conversations, of which Ed Broadbent would not approve. Mr. Foy (the best Housemaster by far) for his patience and understanding, Mr. Walden for his coaching on the Swim Team for three years. I would like to start off by saying a few words about St. Andrew's. The thing I liked most about S.A.C. was the fact that it was always different. There were happy times and sad times (but mostly happy ones). I thank S.A.C. for this varied life. I know these six years will be ones that will be missed. They say that a person is a result of his surroundings and those people that he surrounds himself with. Therefore, I want to thank my friends without whom I wouldn't have made anything of this opportunity, and who have contributed to making me the person I am now. (This is meant as a compliment guys.) Thanks Bill,

Andrew, Sean, Dave, Steve, Simon, Gary, Adam, Hugh. I also want to thank Mr. Foy and Mr. Halstead who have stuck up for me through hard times and have helped bring about the good times. Lastly and most importantly, my parents. I want to thank both of you for the guidance, faith and love that have always been there when needed, through the whole time at St. Andrew's.

*I want to live,  
I want to grow,  
I want to see,  
I want to know,  
I want to share what I can give,  
I want to be  
I want to live.* John Denver.

It is these things that St. Andrew's allowed me to do. Thanks again Mom and Dad. I love you both for giving me these six years.

## Peter Hickey (1986-1989)

NICKNAMES: Hicks, Hickster, Tourist, Red-Neck-Hick, SAYINGS: "Curt, what did you sign me up for this time? I (anything)...from hell." "The amount of fun you have skiing is directly proportional to how little control you have." "I'd rather die than ski like an instructor!" "I'm going to that guy Long's House." "Hamilton's the best! Honest, Hamilton really is a nice place!"

ACTIVITIES: Prefect; Service Committee Chairman; Grad Fund Raising Committee Chairman; Mayfest Committee; Grad Review; Volleyball; A & N Skiing; Cross-Country Running; Rugby; Track and Field; Assistant Head of House; Captain in Cadets; Old Folks Night.

My three years at SAC have been years of growth and happiness. The school offers so many unique opportunities to the students who are willing to get involved that success is just a matter of giving the effort. My thanks go to all the excellent coaches and teachers who I have been fortunate enough to be involved with. Special thanks must go to Mr. Foy and my parents for believing in me, and my brother and sister for giving me such high goals.

### David K. S. Ho (1985-1989)

Thank you to my parents for giving me the opportunity to study in St. Andrew's. Throughout my four years of studying, many valuable friendships are accomplished - (G.R., N.S., N.C., E.W.). I am comfortable enough to approach my future.

My thanks to Mr. Foy for his support and also to Mr. Arril for his guidance. Finally, thank you to Mr. Inglis for his high recommendation marks.

### Adam Long (1982-1989)

NICKNAMES: Bongo, Bingo, Bango (or anything that rhymes), Teddy, Cubby, Snuggles (or anything that sounds like a stuffed toy), Addy

ACTIVITIES: Football; Basketball; Miniball (Salt 'n Pepa); H.R. Club; Rec Room Resident.

To begin, I would like to thank my family for making my years at SAC possible, and for putting up with me (thanks Mom, Dad and Nan). Also, I would like to thank my brother, for if he had not decided to come to SAC, I would not have ended up here either (good choice Nick). For the past few days I've questioned myself as to what I've gained by being at SAC. The answer I've come up with, is probably not one you would expect. I don't believe it has prepared me for university or even helped me choose the right university, but rather it has prepared me for life. I've learned how to deal with people and make lasting friendships. To me this is the greatest attribute I could have gained from school, and I wouldn't give it up for anything. Speaking of friends, I thank you all (you know who you are), I couldn't have made it without you.

### Mark Fabian Lopez (1987-1989)

My last two years at SAC have been a real growing experience; the first time away from home were difficult at first. But friends were quickly made and I have memories of good times that I will never forget. St. Andrew's College is a very distinguished institution of which I am proud to be a part of. I am confident about the future and that is half the battle won. Thanks to all my teachers and friends for their support. Thanks most of all to Mum and Dad; without you I would be nowhere. Next I would like to thank Mr. Somerville who has been the secret to my academic success. I would like to thank Mr. Hiltz; the physics has been tough but I love it! Most of all I would like to thank my parents who have made this once-in-a-lifetime opportunity possible. I love you Mom, Dad, Vin and Gin. After a quick re - cap of my first and only year at S.A.C, I can say that I remember only good times and better times. It was a great year for me, coming in with not a thought in my head about my future, and leaving with a very decisive plan about my life. Some great person said,

"People make a place.", and I found this to be most relevant to S.A.C. I have made many close friends here. I want to thank my teachers who helped me immeasurably, even though there were some strained points through a pile - on type workload. I especially want to thank Mom, Dad, Gramps, Gran and Kates, without whose support, reaching this far would not have been possible. Special thanks to Mr. Foy (the world's best housemaster) and Mark, Sean, Gov, Al, Danny, Chris ("the door ready?"), Rob and the crew, Dan, Yo, Mike, and the rest.

**NEXT YEAR:** University of Kent (yes, in England) or some other famous pub.

In September of 1984, a 5'4", 130 pound very thin, innocent kid ventured through the front gates, past the statue of St. Andy and into the halls of St. Andrew's College. In my four years at S.A.C I've seen good and

bad times. The good ones were often shared with the precious friends one never forgets; CS, CW, BL, MS, TK, JM, JL, MG, JC and many others. Thanks to three great housemasters, Mr. Foy and Mr. Hanson and Mr. Galajda, boarding at S.A.C was more like living in a minimum security Holiday Inn rather than Alcatraz. I also owe thanks to my tutor Mr. Stuart, and all the masters that have guided me over the years. Thanks to my two brothers, Jim and Mike, I always had someone to lean on and someone to lean on me. There are two people, to whom I owe everything and these are the two most important people in my life. To my Mom and Dad: thank you for your love, your understanding, your support but above all, thank you for choosing St. Andrew's. To my entire family; I love you all. In June of 1989, a 6'0", 190 pound man (I'm so big) will leave behind him the hallowed halls, the statue and the front gates. St. Andrew's is not my school; St. Andrew's is my way of life.

Most people start their comments with their reflections on the school. I would like to make sure that my parents get the recognition they deserve. To my mother I would like to express my truest love and respect. From the limo service, my bank account, to being my personal physician, Mom you're the best. To my father I would also like to express my truest love and respect. For your wisest insights into humility, laying low, education, and girls, Dad, a sincere thank you. There isn't enough space to write about you two. To my friends, the memories are gold. Future - Commerce, International trade, Chartered Accountancy.

We're abandoning this life we've led, So long to highschool and SAC. We've started on the trip ahead, We're never coming back! Oh, what a life! We cannot wait, To be in that college land, Where we'll be masters of our fate, And lead a life that's grand. - Calvin and Hobbes

Much can be said about my two year romance with St. Andrew's, but it has probably all been said by my colleagues. The school and everything in it have been a tremendous influence on me and the path I will take in the future. There have been both good and bad moments but I will treasure all of my memories, and I will never forget the school. I cannot say that I am not glad to be leaving, but good-byes are always sad. Thanks to my teachers. Special thanks to my parents, Mr. Foy, and all of the close friends for their support and good times while I was here. I will never forget any of you. Thank-you God. NEXT YEAR: To dive conch at home, shack up with Armaly in his card-board box and watch all the Dolphin's games.

My six years at St. Andrew's are finally over, and have I changed? Yes I have, and I am proud of the new me. I wish to thank all my teachers who have helped me throughout my stay here, and a special thanks to Mr. Foy, who made Flavelle house seem like a home to me, and for his friendship. To my beloved parents, thank you very much for giving me the opportunity to attend such a fine school; all the love that you have expressed to me during my stay here will never be forgotten.

this community which has broadened my character, and made me a better person. For that I am forever indebted. Attending S.A.C. is not something you do alone. Great friends help you along. To Mr. Foy (The Greatest Housemaster ever), Mr. Dunford, and Mr. Smith too, thanks for your guidance, support, friendship, and your understanding. To my two best friends in the world, Ted Mirkopoulos and Corey Williams, the two who really know me, thanks for being you. Friends Forever. To Led, Shanks, Jase, and all the others, one person doesn't deserve as much as you have given me; thanks for the great times, never lose touch. And to the two most important people in the world, MOM and DAD, without who's support, advice, encouragement, and love this wouldn't have been possible - I love you always. To Shawn, my bro, for his constant love and support, he's been by my side. And love to Tippy too! To know that I have made people smile and be happy, is all that counts. Never forget me. I love you all!

Throughout my three years at SAC, every problem and experience seemed colossal; I now realize they were for my benefit. Every aspect of SAC life, academically or athletically will contribute to my success in the business we so call life. Friends at SAC have made my stay even more memorable; people like Bud, Devo, Walk and Keats just stress my point regarding "It's not who you are, it's who you know!" Many thanks also to MG, SG, MR, DM, and SR. Finally, thanks to Mom and Dad who were both always there when I needed you, although I was never too reliable, you made the whole experience worth while. Father Sean O'Sullivan, you were a truly remarkable man and a real friend. And to my brothers, yes I will be more successful.

I have made so many great friends, friends I will take wherever I go in life. BL, MS, TK, JM, DR, MG - you're a great bunch of guys. S.A.C. taught me so much, not just in classes but in life. To Mr. Walden, a great tutor and friend, to Mr. Treasure and Mr. Raaflaub - thanks for all you have done in showing me the growing process. The people who I owe all the thanks in the world to are Lally and Rob, and especially Mom and Dad. What made this place so special was a group of people that I have met and shared pain and joy with. My nightmarish roommates, Led and Shanks, didn't our friendship grow in the washroom, hiding from Mr. Raaflaub every morning? And Reed, Rod, Gluse, Bradshaw, Kurr, Mirk, Hicks, S & J Callender, Male Slut, Simon, and so many others. It's been "unreal." I would never forget the little dreams that I shared with you guys. After three years at S.A.C. I cannot have the same lazy life in the beaches of Madeira. From Prize Day on, I'll be off to the adult life in Canada - too bad I am not going back - but believe it or not, this is where I was born, and where I am living now.

I would like to thank most of the teachers for a wonderful experience at S.A.C. and I think now I am ready to go on with any life. Special thanks to Big Dave [Galadja] for being one of the best coaches I ever had and for showing me that the only valuable result is improvement, not how fast I can run.

About a million years ago I walked through the doors of Mac House for the first time. The matron stood in the doorway, waiting to welcome me into the dungeon. It's a horror that haunts me, even today. It sure has been a long, hard trip! But since that distant day I think I've learned only one thing for certain: when I end up at A.A. in a few years, I'm sending SAC the bill. Thanks Ma and Pa. It was all worth it.

My past two years at S.A.C. have been interesting to say the least. I would like to thank my Mother and Father very much, for the wonderful opportunity of sending me to

St. Andrew's is worthwhile because it forces you to co-exist with 400 other people whether you like them or not. This can be disheartening when you are trying to get some sleep while half the house is throwing a floor party. However, the rewards come with what will surely be long-lasting friendships: BL, TK, CK, HG, DP, CS, TM, CM, JC, ME, MA, AB, DR, JL, JM - sorry if I forget anybody else. Led, I can't imagine what going to different schools will be like. Thanks to Mr. Dunford, Mr. Treasure and Mr. Halstead. Most of all, thanks Mom for always having the time to come to school, and Dad for not letting me quit on S.A.C. (and for paying the bills).

school here and all the sacrifices they have made, to give me the very best. I love you. S.A.C. has built the foundations I needed to go on to university; disregarding the food, S.A.C. is an excellent school "which charges you for just about everything but the air you breathe". Although two years of it is more than enough - I'm out of here. Rich (L.L. Cool G), take Sean's advice, go into construction, you're de true base man. "How 'bout a pizza and a ...." - Thanks a lot to Roger, Cocomo, Neil and Andrew; last years posse. My first and last year at St. Andrew's has been an interesting and most memorable experience. It has been a time for growth and maturity, both academically and socially. There are many people at S.A.C. that I'm heavily in debt to for their service and experience - to them I give my best wishes and thanks. First of all, thanks to Mum and Dad for giving me the opportunity to study at St. Andrew's; to them I send my love. I would also like to extend my thanks to Mr. Raaflaub for his thoughtfulness and consideration, Mr. Kinney and Mr. Harper for their

teaching and support, and Mr. Myrans and Mr. Timms for being such wonderful teachers. I enjoyed every class that I had this year! I will also be missing many friends that I've met and hope to keep in touch with you all in the future. I won't say that I loved every minute of it, I didn't. What I did love however, were the opportunities that were presented and the experiences gained. St. Andrew's has been an educational experience in the fullest sense of the word. My education here has extended beyond the parameters of the classroom and onto the playing fields and into the residences. I will almost miss it next year. My special thanks to Mr. Timms and to Mr. Hiltz for the guidance and the information they provided which I occasionally grasped. Special thanks as well to a group of great guys: A.M, O.I., G.K. D.R. - good luck next year. Muter, vielen Dank fur alles. In vier Jahre, ohne dich, ich konnte nicht ueberleben. Ich liebe dich. Auf Wiedersehen St. Andrew's.

Cpl., Right Marker 87-88; Honour Guard; First Donut Run (with CB,BH); First Viddin'; Crack of Dawn Club Member (7a); Bum Fest Spectator (one of many.) KC (with CB,BH); First Viddin'; Crack of Dawn Club Member (7a); Bum Fest Spectator (one of many.)

Seven years. That's a long time. It's hard to believe it's all over. It seems like only yesterday I was four foot nothing and called "Dill" by everyone. But I'm glad it's over. The good times and memorable experiences have far outnumbered the bad. My deepest thanks and affection go to my parents, who made these seven years possible. Thanks Mom and Dad. Also, I don't think I would've made it through the last three or four months at SAC without the support and friendship of Curt and the guys (AL, BH, AS, SR, MM, RM, etc.). Good Luck to Sheldon, Maj and Matt next year! Sheldon, keep an eye on your brother! Thanks Mr. Jocelyn for your continuing support.

### *Roderick D. Boothby (1983-1989)*

NICKNAMES: RRROOODDDD, Quad, God, "I said I was Twelve."

SAYINGS: "Dave, I crashed and burned ... again." "YES Will", "Romequepaca" "Teeeee". "Donut, how 'bout a box?", "Wanta buy a shirt?", "They'll be in tomorrow.", "Jason, Um ... How 'bout those girls from B.S.S."

ACTIVITIES: Prefect; House Captain; 1st Football (2 years champs '87, '88); Rugby player and coach ('89 tour); Jack in *The Importance of being Earnest*, Stage manager of *Grease*, *Hamlet*, *Dogg's Hamlet*, brought back Winter Carnival; Chairman of the Grad Charity Ball (SuperSemi); Sgt. in Pipes and Drums; posters, shirts, Mr. Smith's bike; Mayfest; Debating Society - in other words, Kevin and I tried to run the place. Waking Dave and She, heading out in the little blue car with Markie and Gobie, a victim of the eclair wars and ... oh yah, getting thrown out of Fitzies.

They told me to write a comment that captured everything I had to say about six years and then to tie up all loose ends. Good luck. They also told me, when I arrived at S.A.C., that the more you put into the school, the more you get out. I believed them. It isn't just a stupid cliche designed to encourage hard work, it's the truth. Take the initiative, find the challenges and you will reap the rewards, here and everywhere. Enough with the philosophizing and on to what S.A.C. has meant to me. True friends. They gave me the best of times and pulled me through the worst. "Thanks" just doesn't cover it. To the staff, thank you for giving me confidence, a greed for knowledge and a love for the stage. Mum, Dad, G & G, you gave me St. Andrew's. All I can say is thank you, but somehow it isn't enough. On Prize Day, I'm going to leave S.A.C. happy and looking forward to whatever, but one day I'll come back and miss these days.

NEXT YEAR: W.S. told me "all the world's a stage" so maybe I'll act some bit part at Queen's.

## Damian Craig Brooks (1986-1989)

SAYINGS: "Hmmm, yes, well...we won't talk about that." "Yes, I do have a home." "Hey, ugly!" "Time to call the parental unit." "Yes Will." "RODI" "Kevin, would you stop scurrying long enough to talk to me?!" "Air Beel." "No, you don't understand." "It's optional." "Morning campers!" "Time to pull out the fudge constant."

ACTIVITIES: Soccer, Rugby, B-ball, Debating, Cadet Lt., Review, House Captain, Breakfast Club, Honourary Member Sifton House, Spares with Naz.

This is quite easily the most difficult composition I have ever attempted, for here I must try to tie up all the loose ends of the three most challenging, frustrating, rewarding, and - in the final analysis - best years of my life. S.A.C.

has many problems, and I have seen the dark side that is born of the isolated, privileged existence that we lead here up on our hill. Yet the school is an excellent one despite much of the student body and administration; it survives due to the efforts of a small but devoted core of loyal masters and students. Of these students, I am proud to call many friend: K.W., S.N., C.B., R.B., W.H., and others. At one point or another, each of you has been responsible for saving my sanity, and I cannot thank you enough (although I'll never stop trying). However, the most credit for anything I might have achieved at S.A.C. goes to my parents. You both know how much I love you, but you'll never know how much this has meant to me. There's something unexplainable about the school that buries itself deep inside you - it gets into your blood so you can

## Timothy A. Comfort (1987-1989)

NICKNAMES: Comf, Comfy,

SAYINGS: "Great Marsh, the history's still not done!" "but seriously Shel, it's only two minutes and it's on your way!" "Ummmh...the McD's drive thru was slow this morning!"

"No I didn't make First Hockey, so leave me alone!" "So Bullen, we'll get this band together next week for sure!"

ACTIVITIES: Second Football; Second Hockey, 2a, ISSA Consolation Champs; First Lacrosse; Tennis; Fitness; Cdt. W.O. Club, Cdt. Stores; Club Cal (odd months), Last min. House Play Special Effect.

Only having experienced two years at St. Andrew's, I feel I may have fallen short of what S.A.C. really has to offer. In the years that I did attend though, I can honestly say that it has changed me for the better and that it has prepared me for some of life's obstacles which are sure to come. I'd like to thank Mr. Kinney, Mr. Robinson, and Mr. Somerville for their patience and support, and most of all my parents not only for their support, but also for putting up with me these past few years.

## Robert Waring Devitt (1983-1989)

NICKNAMES: Dev, Devo, Uncle Bobby, Devster, My Little Loved One, Mooner

SAYINGS: Shut Up!, Coach Can't See, I Wish I Was At Brescia, What class are you skipping now Foster?, OH Akiel, Oh my God your sooo huge Gluse, Yoh'kay Buddy, Only If, I hate school, Hands, Friends, What they don't know can't hurt them, Atkins where's my money? What if you were a geek? People who got A's teach; people who got B's end up working for people who got C's.

ACTIVITIES: U14 Soccer (MIP), U16 soccer (Capt., MVP), First Soccer (MIP, MVP), Nova Scotia Soccer Tour; U16 Skiing (MVP); First Hockey; U14 Track (Capt. MVP), First Track (Capt., MVP); Bum Spare, Table 101; Boxer Baseball, "Quest of the Shaolin" (Best Play), Goggler Party Victim, The Mo, Learning Week in Montreal, Lennoxville and London '88; Car Rally '89.

I've been at S.A.C. now for six years and they have been nothing less than incredible. I've learned a lot not only in academics but in sports and extracurricular activities. It seems like only yesterday that I began here. The time seemed to go by so quickly - I can't believe that it's finally come down to this. There are a few people that thought I wouldn't get this far, but I did and not with bad marks either. One thing that's really kept me going at St. Andrew's is good friends especially Walker, Keats, Akie, and Bud. Without them I think the school would have won. But most all I have to thank my parents. I put them through hell and back worrying about whether or not I was going to get my year or get to where I wanted. Thanks for being there when I needed you and for all your constructive talks. I love you both. I don't think I will really realize how much I will miss this place until I'm gone.

## David J. A. Foster (1984-1989)

NICKNAMES: Dave "The Golfer"

SAYINGS: "Mantrop, you are so stupid!" "Devitt, what class are you skipping now!" "Adolf is such a..." "I'll have the party" "I don't work, I play Golf" "I'm going to beat you Devitt" "I think we're in Philadelphia"

ACTIVITIES: Soccer (4a) Capt.; Golf (5a) Capt. MVP; Track; Golfing on sunny days; South Carolina '88; Bum spare; New Year's Eve party; Driving the Super K; Boxer baseball; Shaolin.

to golf and has helped me make the first important steps to the Tour. Mom and Dad I can't thank you enough; without you I never would have made it. I couldn't possibly thank everyone, but you know who you are. In a way I don't want to finish these because that will mean a very big part of my life is ending and I have to move on, but you can't be afraid of success. The friends I made here I hope I will never lose, but I don't think I will because I'll always have the memories. I'm sorry about the Rivers game but I never had a good shot anyway. This will be farewell, not goodbye. Look for me at Augusta in '94.

I don't know where I'd be today if it wasn't for St. Andrew's and my friends here. SAC is more than a school, it's a way of life, and one that I didn't think I was going to get through sometimes. Thanks to PCM, Rave, G, Devo and Ro for the comic relief and convincing me golf isn't everything, it's just my life. SAC has been a good contrast

## Mark Edward Ibbottson (1986-1989)

MARCUS IBBY M.D.

The year is 1987, and I'm gazing over the most intriguing, lifeless feline. Suddenly, the biology teacher instructs us to make an incision ... It was at that moment, while holding the carefully preserved organs I decided I would like to someday become a doctor. Few have the stomach to become a doctor, but after some of the senseless things my partner and I did to that helplessly formaldehyded cat, I knew nothing would ever faze me. After graduating from S.A.C., which I might say were the most diverting and interesting years of my life, I continued on to university. My first year was an orientation into a new lifestyle that differed quite from the one I left. No more six o'clock sit-down dinners, no more curfews and most of all, no more nagging parents. The following year was a time to settle down and achieve the marks needed to enter medical school; the next six years might be what some describe as pure hell or as we in the medical

## Peter C. Mantrop (1983 - 1989)

NICKNAMES: Mantrop

SAYINGS: Hi I won the chapel prize!

ACTIVITIES: I really did win the chapel prize.

I have been here for exactly one third of my life. I have learned something about English and Math and Geography, but they are not the ingredients of my memories. Friendships are the trophies that I will leave here with. Friendships with masters and coaches and students; friendships as old as the bricks in Mac House, as solid as the maples on the quad, and as durable as the hamburger patties in the dining hall. There is a little bit of me in St. Andrew's (I've written

## Matthew A. McPherson (1984-1989)

(1982-1985, 1986-1987, 1988-89)

NICKNAMES: Buckwheat, Bubbles, Bubbs

SAYINGS: 'Do I know those ear lobes?', 'Pady, take a shower!', 'Shut up Dool', 'Wanta bacon bagel, Harry?', 'Ya right, Geoff!'

profession call a transition from human being into the so called super doctor. The beginning of my most successful career is filled with very satisfying and enjoyable memories. I was an assistant surgeon for two years, then moving on to a career in research medicine. Covering many interesting and controversial areas of medicine, I never had time to slow down. There were many ups and downs in the early years, but I would never have changed it for the world. The next few years were more or less a time to mellow and some say, finally mature. I am presently living in a rural town just outside of Toronto with a small practice and continuing my interest with research medicine. The newest adventure, the career I have just started, is writing biographies, starting with my own. Although in 1989, many people felt my hopes and imagination were humorous and none the less fictional, I am glad I did not let it bother me or change my mind about becoming a doctor. I am glad to have been able to share my dream with you and hope that everyone is able to achieve what they want in life.

my name on a few bathroom walls in an attempt to achieve some immortality), but there is much more of St. Andrew's in me. Its impression on me is much greater than a few pen scratches; it is deep and permanent. So are my memories. This is not my place for thanks. The friends and family are too many, and the debt to them far too great. But to the two people who made it possible for me to be here, I will say this: Mom and Dad, I love you, and I pray you think its all been worth it, because I can never pay you back.

NEXT YEAR: Scares me!

My life at SAC has been very interesting. I have come a long way from those early days when I combed my sideburns forward. Of all my learnings in the past five years, the most valuable is the awareness of a well-balanced life. We can choose to put all of our time and effort only into academics, or only into sports, but that's hardly the formula for success. The way I see it, there's a simple formula ... lead a balanced life, give 100% in all aspects of SAC life and most importantly, make some good friends; JC, IBBY, WEED, RAVE, STEVE, MASE, GUND, G, SS and TB are the best ones that I made. Mom and Dad, Shelley and Seanna, I love you and thanks for everything. GRS and Mr. Swan, you have my highest respect. Now, I guess, I'm ready to comb my sideburns forward and use the formula.

Next year: Packing all summer for University.

Friendships and memories. Along with an education, the two most important assets I have received at SAC. There have been so many great times - New York '86, Montreal '88, the Griddle Club, the Moclub, and many more - that you tend to forget the bad times. There are so many people to thank for this opportunity: my teachers, friends, and especially my parents, the two most important people in my life. Thanks a lot guys!

When people ask me what it is I cherish most about my years at St. Andrew's, I reply with sincerity that it's not the well disciplined Cadet Corps or the voluminous library brimming with wisdom. I boast not of the two well lit gymnasiums complete with ultra high ceilings. I divulge the true secret of St. Andrew's. I tell of the diversity. I preach of the opportunity. I flaunt the infinite potential for success. The truth is the motivated will succeed and the rest go to sleep. My exit will no doubt be unequivocal and hermetic while still retaining qualities of paternity. I really don't wish to leave and would stay if I could but in a very Cellinian sense I realize I must saunter on. My wonderful Mother and my enchanting Father - I thank you. You are two of my best friends, and don't worry, I'll keep my room clean at college.

It is hard to believe that my days at St. Andrew's have finally come to an end. There were many rough times when I was thinking about giving up, but there were also many good times which really made me proud and glad that I was attending St. Andrew's. Thanks to all the Masters (Mr. Bedard, Mr. Whitehead, Mr. Stuart ... and everyone else) for their help and guidance throughout my school days. Good luck to all my friends who will now be let go into the unsheltered jungle (hope to keep in touch). Last, but not least, I would really like to thank my amazing parents for giving me the incredible opportunity to come here.

**NICKNAMES:** David, Stever, the Colonel, the Flims, (there's not a lot you can do with Timms)  
**SAYINGS:** "Five bucks is five bucks.", "Wiffle, wiffle, wiffle!", "Oh Jees eh!", "Do you still go here Greg?", "How's a bout a Cruller?", "Poustill", "The only thing that comes from ---- is queers and steers, and I don't see no horns.", "It's all right.", "There's hardly any good looking girls here again this year.", "Keep your skates together, stick on the ice, and don't get deked.".  
**ACTIVITIES:** Assorted football, soccer, basketball, rugby, tennis and cricket teams; Seven Year survivor; Cottage Bound Club; Cadet MWO, Corporal of #5 Platoon; Assorted plays, bands, debating involvements, possessor of the lowest burned/bum ratio, SAC Waterski Team.

Nineteen years in one place is a very long time. S.A.C. has obviously been a very big part of my life. But, it's finally over. Thanks must go to my Masters and friends (they know who they are), both past and present, for they have made my stay more than just tolerable but truly enjoyable. These people make SAC the worthwhile experience it really is. I would also like to thank Mr. Timms and Mom, Dad and Gert for their support, encouragement and love. It will be scary next year totally removed from this place, but I am looking forward to it. Thank You, Take Care, and Happy Trails. Good luck next year, Spiffhead!

ACTIVITIES: Footballs; Basketballs; Cycling; Drama; Debating; Physics with the smiling assassin; First Team Donut Run; Corn planting; Club Calculus; Service Committee; Review; 1st Team mattress riding; Head of Mayfest; The Anabolic Warriors Powerlifting Team; Prefect; Sometimes scholar; Driving with Mr. Ray; lead singer of the Travelling East Gwillimburys; Cadets; Social Committee; Montreal '88; Bowling with Shamu Harpoon.

It's over, the end, finito, caput. What can I say; St. Andrew's was great. What started as a struggle, ended in victory. Thanks Mother and Dad, you're the best! I am not worth of the love, support and friendship you have given me. I love you. Thanks to my teachers and the staff at St. Andrew's; you have aided and enriched me beyond belief. You are true friends. The greatest reward S.A.C. has given me is friends. My friends have shared by insanity, given me a place to sleep, and have fed me (a task in itself). Even through the worst of times we still could laugh. Good luck to all who are returning to S.A.C. next year. I leave this advice to you:

"Better drop Calculus when facing adversity and gain admittance to university." Jon Morgan (The fool that didn't take his own advice - but neither did I)

NEXT YEAR: Cryogenics at Devry or opening a donut/beer store in Dwight with Steve.

### Bradley J. Harrison (1982-1989)

ACTIVITIES: Assorted sports teams (football, basketball, rugby, cricket, fencing); Cadet Lieutenant; Squad Vid; Bowling with Shamu; Club Calculus; Full Contact Snooker.

SAYINGS: "Nice Attitudel", "Did you see...", "Sorry, I don't do that Calculus thing.", "The man is out of control", "Yeah right.", "No, Go, Leave!", "Ya know The Count is Millie's evil twin brother?", "That's just about enough outta you.", "Shut Up Kevin!", "TRUST ME!"

Seven years ago. Now. Changes. S.A.C. has changed since I first arrived. So have I. It is impossible to spend seven years in this environment and remain unchanged. S.A.C. is a learning experience, but it is also more. It is an attitude, a way of life. Looking back I feel that the time here was well spent. The hard work justified, the end satisfactory. Thanks to all those who made my journey possible. Thanks to the various staff members who helped me. Thanks to my friends; I wish you luck. Thanks most of all to my parents. Thanks Mom. Thanks Dad. I love you both.

### William Ian Craig Kay (1982-1989)

NICKNAMES: Gus, Eon, Easy, Baby EE, Perry Ellis a la nicotine.

SAYINGS: "IIIIBBY", "Do I Know you?", "Yeah, okay..whatever!" "When is the last time you had a shower...Fall, Devitt, Pady, Plaxton?", "Do you want to break up Dave?" Question: Broke, ... and car's in the shop?... Answer: C.Tullis., "Enough of Derek!", "YESSS!", "Oh my God!", "Hellooo?", "Devitt, why are you here?", "Thanks Atkins for keeping Gundy awake - along with everybody else who has ever met you!"

ACTIVITIES: Soccer; Hockey; Tennis; Squash; Cricket; Rec.Golf; Shipwreck '88; Gridle Platoon(Corp.); Mo Club; Sailing With Dave; 1st Ping Pong with Derek; McDonaldfest; Bob's black list; Montreall; Driving my green Tercel; May 24 weekend...50 still rules!

I remember arriving in grade 7; cool, calm, collected and ultimately untouchable. This attitude was quickly altered as I became just another small, insignificant, squirt on campus. During my endeavours at S.A.C., I have encountered many eccentric individuals, such as my devoted tutor, Mr. Robo, and have learned what it takes to become a true Andrean. I don't know if I ever accomplished this goal in the minds of some of my doubting teachers; but in my mind I got out of S.A.C. what I came for - a great education, good athletic experience and many close friends. I owe a great deal of thanks to these friends for being there when I needed them; but the most thanks has to go to my family who sent me to S.A.C. and gave me the support and confidence that I needed. As I look back on my early S.A.C. days, I have come to realize that I have finally earned the stature of being "Untouchable." (...who wouldn't be, driving in a high performance car like mine!)

### William R. T. McClocklin (1983-1989)

SAYINGS: "What's that Marigold?", "Geekmaster", "As one progresses through life...", "Are you telling me the truth? (hick accent)"

ACTIVITIES: X-Country Running; Rugby; Mountain Biking; Community Service; Flying; Ski Instruction. (The last two activities have nothing to do with school, but they do show that there is life outside St. Andrew's College even while you're here)

Thanks to Mom and Dad for the opportunity to attend SAC. Many thanks to Jon Hart and Andrew Luks for providing friendship and comic relief over the past SIX YEARS. I would like to thank A.B., C.D., E.F., G.H., I.J., K.L., M.N., O.P., Q.R., S.T., U.V., W.X., and Y.Z. - without whom I would not be able to communicate. Finally, I'd like to thank S. O. Humour for keeping me sane.

One's Grad comment has but two parts. If I should think of anything really profound to write about this place, I'll write it down in my editorial- where I've got more space. So there remains only to convey my sincere gratitude to the people that made SAC tick for me.

Thanks to all my tall friends for keeping me in line when I needed it; thanks to the shorter ones for being shorter.

Thanks to all the teachers who never gated me.

Thanks especially to my parents - all I have is what they've given me.

Next Year? Doesn't matter. (The world ends tomorrow.)

## John J. Park (1985-1989)

Talking with Bud on the football field after practice, I think I realized what the conclusion of this part of my life really means. Good friends may drift out of my life and it's up to me to stop it. The threat of losing your identification with these guys is terrifying. S.A.C. provides just the right

ambiance to occur as we all shared the same goal - to get through it. These relationships go much deeper than the burning sessions let on. We cut each other up on bathroom walls, call each other names, and generally try to make as many people feel like idiots in the shortest possible time. Thanks Ib, for being there for me. After three years I think we've almost learned how to be friends. I'd like to thank my parents for being amazing friends. I love you guys. I was going to write shallow comments and look what happened, jeez!

## Marshall Cory Starkman (1988-1989)

NICKNAMES: Starkey, Stork, Bagel, Pokey, Star, Rodent, Gremlin, Starks, Sharky Jr., Mush, Pang, Stark, Moysh, Starshall Markman, The Wall.

ACTIVITIES: I Football; I Hockey (MVP); I Lacrosse (Asst. Capt.); Dogg's Hamlet.

Thank yous: To all my buddies from Thornlea (especially Skarry); to all my past hockey coaches and teachers; to JDP for teaching me how to be the best; to Mr. Steve

Cains for his enlightening pre-game speeches and his priceless advice; to the teachers at S.A.C. who've taught me more in one year than I learned in the three previous; to Mr. Kimmerer for always being there; most of all to Mr. Dunford who made it possible for me to become an Andrean (you've been a great coach and friend; thanks for caring so much); to my brothers and sisters who've always been supportive and understanding; and last but not least, to my wonderful parents to whom no words can express my gratitude - thank you for always being there. I love you. Academically, I have been enlightened by the unique teaching staff for whom I have the greatest respect and honour. They have become companions while doing their utmost to prepare me for university. Athletically, I have experienced some of the highlights of my life which I will forever cherish. Of most importance, though, I have learned that true meaning of what it is to be an Andrean. Of all the many things I have gained from S.A.C., the most genuine are the true friendships that will forever be.

In one hundred words, I could extol the virtues of SAC - its staff, students, facilities - but I won't. Although I am well noted for giving very long, deep and yet evasive answers to very simple questions, I aver that SAC can be summed up in four words: it is the best. This, however, is a conditional statement. As Rod will testify, school involvement enhances and prides both the Andean and SAC, but avoiding the billingsgate, I screwed up and took

scared stiff driving through the gates for my first day. S.A.C. has taught me a great deal about Math, English, and Physics but more importantly about life and people. From the sports field to cadets to the various extracurricular activities, life here enables you to grow and mature, to be prepared for the real world. An experience at SAC would not be complete without the life-long friendships that are made here. Thanks to my two best friends Craig Sterling and Ted Mirkopoulos, and to Led and Shanks for all the good times. Without a doubt many teachers made my stay smoother. I would especially like to thank my tutor, Mr. Whitehead, and Mr. Hiltz, and Mr. Walden for their help and guidance over the years. Most of all thanks to my Mom and Dad for giving me such a golden opportunity. Your support, encouragement and understanding means a great deal to me. To my sister, Amy, who was by my side through it all. I love you all very much.

Involvement to an extreme. Had I not such self-sacrificing friends and family, whether it was help at school, a late night telephone tuition, or simply a supportive hand and voice, I would not have made it through one week, let alone five years. Throughout this time, many of my teachers helped keep me on the ship of sanity - always willing to spend their free time to help. Despite the many conversations with Spaz and Damian about school politics, my ship usually managed to avoid the Scylla and Charybdis and it went on to smoother times. SAC has allowed me to navigate about the globe, learning and experiencing new things from exotic ports of call. I have seen myself and my friends mature, developing both their appearances and personalities. For this reason, the Grade 13 class will not be looked upon as a graduating class, but rather as a group of skilled and learned men graduating with class. To my friends, thank-you for being who you are. To my parents and SAC, thanx for everything.

Well, I have procrastinated long enough. Mike, our fiery yearbook editor, is standing over me with an axe, thus I am finally forced to write this. What can one say about St. Andrew's; this place where I have spent a quarter of my life which has, as comy as this may sound, nurtured me on the road to manhood and hopefully made me a better person. Many thanks must be given to Robo, a relentless housemaster and a true friend; to Mr. Smith, for his continued prodding and support; to John and his family for a second home and a warm bed in Toronto, and most importantly, to my loving parents.

Well it's finally over; it's been three years since I first entered Sifton House; I've seen two housemasters, and numerous teachers come and go and I think that it is about time that I followed their example. I would like to thank all of my teachers, who have put up with so much and were so helpful, understanding, and patient, with a special thanks going to Mr. Robo, who was not only my teacher,

## Vance Andrew Campbell (1987-1989)

housemaster, tutor and coach, but also a good friend. I would especially like to thank my Dad for making this all possible, although at times I must admit that I didn't know whether I wanted to thank him or CHOKE him. Also I would like to thank my Mom and Karen for their never ending support and confidence in me; as well as Donna and David for the good times we had together. I would also like to thank Shane, Sean, Glen John, Vance, Moody, Mark, Govin, Naz, Collins, Cocomo, JP. I would especially like to thank Daniel Thwaites, who pulled me through the bad times and made the good times great - "Thanks Dan, I couldn't have made it without you."

**NEXT YEAR**: Wherever the fishing takes me.

SAC has helped me fulfill every projection I have made for myself three years ago. I am happy to have had the experience and all the enjoyable times it offered. I would like to say a very special thanks to my parents and family to whom I will always be grateful. And to my friends: Daniel, Clay, Jason, Glen, Sean, Buffy, Mase, Tullis, Pantie, Vaughan, Vivas, Mike, Normal and Hugh - thanks for everything.

A special thanks to Messrs. Bedard, Inglis, Raaflaub and Somerville for their advice and precious time.

An especial thanks to Mr. Robinson for being a good Housemaster, Coach, Teacher and friend.

And last but not least, I would like to thank my uncle and aunt for everything.

## Horace H. Cheung (1986-1989)

There is much to be said about these three years at SAC. It is the school where I decided to join the four year program, and changed my life. Here, I have been tested to see if I am good enough for university. Next year, I will be heading for another part of my studying career. The happy memories here will become my energy, my support, which will help me in the future. There have been times when I felt tired and hopeless, but the teachers and my friends always gave me support, so that I could stand up again.

also like to thank Mr. Bedard for giving me a great place to study, so that I could pass my Grade 13 year. Finally, may I give special thanks to Mr. Kranz, Mr. and Mrs. Hiltz, Mr. Jones and Mr. Inglis as my good friends as well as great teachers who were always willing to help me whenever I needed them to help me to get through the hard times.

**ACTIVITIES**: Volleyball; Cricket; Rec. Golf; Fencing; Houseleague (but then I got smart!); Co-Head of Chapel; SOMA; Sr. Debating Society; SAC in France; House Captain; C.M. on P.I., Anything Goes, Earnest, Hamlet, Grease, etc. ...SADD (sorry OSAID)

I have learned a lot in seven years. One can't live in an institution such as SAC for that long and not learn a lot.

I've had good times and I've had bad times but the good outweigh the bad by far. I've also met some great people with whom I've shared the worst and the best times of my life. I'll never forget the late nights in Sifton sitting around and rapping, or the nights in Flavelle trying to play football on Bongo's computer. There are so many people to thank for all the good times. I've got to thank my friends (you know who you are). Thanks to Mr. Bedard, Mr. Halstead, Mr. Harrison, Hans, Robo, PGK and GS for everything they did, and to Mr. and Mrs. Clements for their patience. No thanks can be large enough for Mom and Dad who put up with me over the years, who were always there for me when I needed help, and who gave me the opportunity to go to SAC. I love ya!

**SAYINGS:** "Pick up chicks and go to the barrr.", "Mr. Timms, I did so do my opus", "Rather unusual smell in here gentlemen...Carry on!", "53 Hey Buddy!", "Mike, I'm not a homosexual.", "We deserve one Mase. Four years at St. Andrews is a little rushed but still one too long. I've spent the entire time trying to live down Max's reputation, now I can say, proudly, that I have lived up to it. SAC builds character in its students and I believe that I have passed this stage, to the doubt of many. Boarding life taught me to respect others. The teachers taught me how to deal with others. Mac House taught me discipline. France in Grade 10 changed my way of thinking and discarded all my previous teachings; I learnt everything all over again, perhaps not the correct way but definitely the best way. I feel confident that with the friends I've made, one will someday give me a job. Without my father's pushes when I needed them, and my mother to lean back upon I would not have made it through. Have fun for one more year Chris, learn to speak in sentences. Ben make the next few years good ones; it's easy, just don't give up.

**NEXT YEAR:** Somewhere with Tullis.

St. Andrew's has truly been a most rewarding experience for me, both in and out of the classroom. There are many people who I must thank sincerely for this wonderful adventure. First, thank you to the staff; your commitment to excellence makes St. Andrew's an institution worthy of recognition. A special note of thanks must be made here to Mr. Hanson, Mr. Josselyn and Mr. Robinson to whom I am eternally indebted. To my friends, I am grateful for all the good times we have had together. Finally, thank you to my family, for their support and love through out these years. "Big Guy", Mom, Grandma, Brian, Mary and Dave, I love you all very much.

"You know what's weird? I'm really going to miss this place." After spending five years at St. Andrew's I've gained much from the academics, sports, and different

extracurricular activities in which I've been involved. In retrospect though, I'd have to say that of all that St. Andrew's package had to offer, friendships were the most important. I'd first of all like to thank everyone who went out of their way for me; I know there have been many most of whom I probably selfishly failed to recognize at the time. To the teachers who aided me along the way - Messrs. Jackson, Kitchen, Robinson, Arril and Somerville - in simplest terms, Thank-You! To the greatest sport I'll probably ever know, and someone from whom I've learned more through example than I have in most classrooms - thanks Coach. The last and most important part of the package, my friends; to the two most special Mom and Dad. (It's now time to show you just how thankful I am.) To Brent, thanks for being someone I could look up to. To Mike Ross, (Yap, Devo, Walk, and Keats) thanks for making the good times and preventing any really bad times. To D.M, M.G, M.W, C.T, R.V, M.S, D.P, W.D, M.I, M.M, J.C, I.P, and MVP. G - thanks for everything; I'll never forget the memories.)

In my one year at S.A.C. I have topped off the end of an exciting and trying high school career. The best part of this year was of course gaining the friendship of some great guys, and being able to spend time with Jeff, my brother. Some of the best times were had playing hockey and going on the Rugby Tour (especially the extra night). Thanks to everyone for making my last year at high school a remarkable one.

I've experienced a lot these last five years. I leave SAC with an education I can use. I've learned both in and out of the classroom and a good school should give you that opportunity. I realize I never was the SAC poster boy, but that never bothered me, I was always me. Mr. Robo, Mr. Walden, Mr. Whitehead - thanks for respecting me for what I was and not what I was supposed to be. My close friends - Voges, Weed, Kay, Gund, J.C, Bud, Mike, Yep, Tank, and Raph - thanks for memories; I'll never forget the good times. Tullis, thanks for being the best friend when times were good as well as tough. Mom, Dad, Mike - thanks for being more than just family - thanks for being best friends - I love you.

Well, it has seemed like an eternity at times with ups and downs but it's over now and I must thank a few people: MT, SF, SN, GP, WH, BA, RB, and many others who have all been good friends and whom I will never forget; my tutor, Mr. Halstead, who has supported me and believed in me for the past five years; my housemaster, Mr. Robo, who has helped me grow up and mature. But finally my Mom and Dad who have always been there for me and supported me no matter what I did - I love you both! As I look back, I am not sure what is harder - the seven years I have spent here or the one day that I leave. This school has helped me in so many ways, let it help all of you.

## Jonathan A. Morgan (198489)

ACTIVITIES: Many and varied.

I would like to express my thankfulness to my parents, my friends, and my teachers. My mother, who is first in my heart, has been my inspiration, when I've showed any, and my slave driver when I haven't. Among the staff members, I would particularly like to thank Mr. Foy and Mr. Robo, who have aided me more times than perhaps I deserved. I leave with dreams and hope for their fulfillment, and ideals, even if they are contrary to those of Huge. Once again, my heartfelt gratitude to all.

Seven years. At times I thought it would never end, other times I hoped it wouldn't. I think the best part of this school is the boarding, for it was there I learned the most. It is that which really sets us apart. To my friends, you know who you are, thanks for everything. YOU are what I will remember. Sure there are some bad aspects of St. Andrew's, but in the end I think it has given me opportunities I could not have found elsewhere.

**ACTIVITIES:** Cricket; Swimming; Soccer; Cross-country running; Asst. Head of Sifton House; Social Committee; Cadet.W.O.; Grid. Crew; Honorary member of Flavelle (room#1); Passenger during the trip in "the little blue car", and various other affiliations when they suited me.

After five years, I'm not sure what should be said; not due to my being illiterate, but rather due to a feeling of disbelief, as next year is a whole new beginning. St. Andrew's has offered me many opportunities, only I have never appreciated them until now, now that they are gone. The atmosphere (though somewhat restrictive), my friends and most of the staff have been positive influences on me. I realize that the positive outweigh the negative, but occasionally I had to wonder. Problems have come and have been overcome and more will surely follow. Even though many of these problems have been with students or members of staff (some whose competence I question), I am glad for the chance I have been given. It is one that few will experience. Thanks to Ro., Juice, and Waldo, and all my friends. Further thanks to Dr./Mum Danylak, and a special thank-you to my parents for the sacrifices they made. It was worth it. I love you.

## Michael R. Ross (1984-1989)

**ACTIVITIES:** Jr., First Tennis (4a., Capt., MVP); Jr. Squash (Capt., MVP); First Squash (Capt., MVP 3a., ISAA Champions '89); First Volleyball (MVP, ISAA Champs); Various Running teams; Review, Photo Editor '88; Cdt. Capt.; Housecaptain; Prefect; Europe-Mason Adventures '87,'88.

**SAYINGS:** "Mase, don't worry, I know a shortcut." "That was mine Chris." "Sir I'm always here." "No, I'm not a part-time student." "It's the S.A.G.C.C., baby!" "What's this job stuff anyhow?" and finally, regarding essays - "Make it early. Make it short. And if you have to, make it up." - well, one out of three isn't bad (unless you take History 2).

Everybody has to turn a corner in his life, or else smash into a brick wall. From Mac House to graduation, St. Andrew's has been one corner after another. The walls

may change as I step forward, beyond the gates and one step closer to the real world, but the friendships and memories that were created here will remain with me always. Thanks to Dave, Mark, Chris (Bud), Rob, and all the Grads - good luck and don't forget to write I can't even begin to think about the upcoming year without you. Finally, I would like to thank the Headmaster, my housemaster and my tutor for all of their guidance; and especially my mother and father for putting up with my lackadaisical attitude and for always being in my court when I needed them - your support has always meant the world to me.

*The last thing I remember, I was running for the door. I had to find the passage back to the place I was before. Relax said the nightman, we are programmed to receive, You can check out any time you like, But you can never leave.*

It will be hard not to miss a place where one grows up with the same people and environment for over half a decade. I have learned so much about myself and other people. To Mr. Bedard for the second chance, Mr. Robinson and

Mr. Kitchen for believing in me, and Mr. Halstead for his guidance and advice as my tutor for five years, I would just like to say "merci". To my two close companions Mr. and Mrs. Clements who always put up with my "problems" and always had time for me, I wish to say "cheers" and that the two of you are incredible. The good times at St. Andrew's have been non-stop. They easily out-weigh the bad. To all my friends, namely Rod, Gov, Flem, Tullis, Mase, Jas, Josh, Rob and of course Will, my great pal as well as roommate for three years, thanks for all the unforgettable times and for breaking the tense moments. To my parents: Dad for your sacrifices and patience, and to my Mom for your constant support and love, my gratitude can only be expressed by saying I love you. Finally, to St. Andrew's, the experience will never be forgotten, and my thanks will be forever.

**ACTIVITIES :** Man, I do nuff tings.

It has been a very educational two years at S.A.C. both inside and outside of the classroom. I have come closer to understanding that your benefits from any experience or endeavour, life included, are in direct proportion to the amount of effort you are willing to expend. I will never fail to recognize that S.A.C. has played a crucial part in my intellectual and physical development. I must mention, however, that in this otherwise healthy

atmosphere of S.A.C., I came to realize how stereotypical attitudes toward differing cultural and ethnic backgrounds invariably cause friction. Though this friction usually finds expression in the living quarters, I was interested to see how it also found subtle expression in the classroom. It is my deepest wish to express unending gratitude to my parents, David Isaiah, Anna, Benji, Mary, Tim, Caz, Xesus, P.J., and the Zemans. Many thanks to all the friends at home. Special thanks to Robinson for being a good friend, teacher, coach, and housemaster. Thank you also to Messrs. Timms, Myrans, Ray, and Treasure. At S.A.C. the friends were many - and so shall be the memories. Thanks to Clay, Mark, Shane, Michael, Lessif, Buffy, Chris, and Hugh. To Johan: "many thanks for the great memories, roughneck! To Sean: "You are a soldier; always shock out! Vance: "Respect." **NEXT YEAR:** In whichever direction the wind blows strongest; It's great to have life sprawling in front of you.

Five long years, and it's finally time to leave the resort hotel that we all refer to as St. Andrew's College. I never thought I'd make it and now that I have, I can't help but wonder whether or not I'm going to wake up and still be

In Mac House with Mr. Harrison screaming "You're Guyted!" into my left ear. However, it must be true and if I were to write about all the great times I've had, I'd be creating a opus that would undoubtedly outperform my first one. Therefore, I am going to begin by thanking the teachers that have tried, to no avail to get me to work harder. A nice try, and goodbye to Messrs Robo, Flaub, Whitehead, PGK, Clements, and Ms Thomson. Thanks also to my friends whom I will never forget, namely: Voges, Weed, Kay, Bud, Gund, Tank, Yap, Vance, Devo, Pady, and Fell. Ooops, I almost forgot you Mase (I'll miss ya). Finally, to you Sis, I only have two words to say. "Not Yet" (But boy did I try!) Grandma and Grandpa and Mom and Dad, thanks for everything. I love you all so much! [To Adam and Dallas, I wish all the luck in the world and may all your blues be Labatts! To Raphy, Sarah, and Krista this Buds for you, and to Jen, thanks for everything. (I Love Ya)]

What I thought was going to last an eternity, went by so fast it's already over. The good times, bad times and all my friends will be life-long memories never to be lost. I have no one to thank more for this than my mother and father. I will think of the experience as a gift, for which I will be forever grateful. Thanks. As for the school itself, St. Andrew's has developed in me many qualities such as respect and discipline that will always remain. I feel that within the atmosphere of this school, I have grown up to be a better, more rounded individual. An overall thanks to all the teachers and coaches of the school that have helped me. Although the time has gone so fast, I am ready to move on, hoping that I will benefit from my future experiences as much as I have from my past ones. As for all the friends I have made at S.A.C., I will never forget you guys, so let's make an effort to stay in touch; maybe some day we'll be able to help out each other (keep Lessif and I in mind Gluse).

## Michael J. Weider (1984-1989)

SAYINGS: "Hey Buddy!", "No, I don't look like Schuller!", "You're sooo crazy", "Matt stop flooding the place with tears", "Mase let's go wrecking", "Vogel stop complaining", "Tullis, you know you love my car", "Hey Gluse, ya geek", "Bud let's go vidding"

Many things have changed since my first day at SAC. I arrived, a loser new boy exposed to life after Collingwood. My first roommate, Klaus the maniac, whipped me into shape pretty fast. Now five incredibly long years later I'm at the top of the ladder ready to jump off into my freshmen year at university. A senior once told me that you only get out of the school what you put into it (blah,blah,blah). Well, I hate writing about all that sob story stuff but I think I accomplished what I wanted. A thank-you to my parents and devoted teachers. Good luck to all my friends - Vogel, Tullis, Mase, Bud, Gund, Ack, Gluse, Pady, Matt and all the other loser dayboys. Perhaps one of you guys can give my kid a job in about 25 years.

# Our Heraldic History

One of the finest features of our Great Hall is the display of heraldic coats of arms and badges which remind us visually of our association with the great highland clans of ancient Scotland.

For over twenty five years now our distinguished collection has been growing thanks to our link with Mr. Gordon MacPherson, one of Canada's finest heraldic artists. He works in close liaison with the College of Arms in London and with the Lord Lyon King of Arms in Edinburgh, and has designed arms both for individuals and corporations.

In 1963, Lloyd C. MacPherson commissioned Gordon MacPherson to create the first four badges - those of Bruce, Douglas, Montrose and Wallace. In the mid-70's at the time when our upper school clans reorganized along house lines, Mr. MacPherson again obliged with the other four clan crests - those of Buchanan (Memorial), MacPherson (Flavelle), Stewart (Sifton), and Ramsey (day students). In addition he executed the then newly approved school coat of arms which appears in the centre of our display.

In the past few years, our clan system has been administered by Mr. Rupert Ray and in this period two further organizational changes have taken place which recognize the increasing size and significance of our day student community. We created two new clans: one in the Lower School (Robertson) and one in the Upper School (Leslie).

One year ago, Mr. MacPherson came to our Clans Assembly in May to present us with the badge of Clan Robertson. The badge was accepted officially by Mr. David Whitehead, Housemaster of Laidlaw House. Now, one year later our set has been magnificently completed. Mr. MacPherson was represented by the coat of arms of Clan Leslie, the identity chosen by its members when New House came into existence. On May 25th, Housemaster Bruce Somerville and student Ian Pady accepted their new arms. Thank you, Mr. MacPherson, for furnishing us with this fascinating information, and for making a beautiful silent contribution to our lives and heritage for over a quarter of a century.

R. Ray.

## FLAVELLE HOUSE

## LAIDLAW HOUSE

This was a great year to be in Laidlaw House due to several positive changes and a wide range of activities. Our common room was carpeted (much to Mr. Herder's delight) and a radio/cassette installed for everyone's enjoyment. In November, several members of the house attended Aussie Rules Football at Varsity stadium. Later in the year we went out for a house dinner at 'Lime Richeys' followed by an evening performance of 'Cats' at Massey Hall. Late in the year we had second and third row seats for the illusionist 'David Copperfield' at O'Keefe centre.

Despite the great number of 'jocks' in our house, we were overpowered in our two basketball games against Macdonald House, and the tug of war across Shads. Just wait till next year! In closing I would like to thank Alex Boothby for his excellent design for the house shirt; to our housecaptains - Todd Mank, Sheldon Rodriguez, Chris Cattrall, Jay MacWilliam, Eric Jackson & Steve Creber for their leadership and help, and organization of barbecues; and to our housemaster Mr. Whitehead for bringing it all together.

## MACDONALD HOUSE

It is with great pleasure that I have this opportunity to reflect upon the past year and the many characters of Macdonald House.

I was very impressed by the maturity and sensibility shown by all members of the House. The treatment of our newly refurbished rooms was quite encouraging. Similarly, our remodelled House Library, compliments of the Ladies' Guild, was well used and respected by the boys. I know that this show of respect will help to continue the renovation of the remainder of the residence.

My thanks must go to all members of the house who gave their best in the areas of academics, sports, debating, drama and other activities. Your efforts have been appreciated by many and will prove beneficial in years to come. I have also been impressed by the leadership of many of Grade Nine students in house activities along with the way they live on a daily basis. We look forward to next year's council providing the same leadership.

One could recognize many award winners from the house but space allows me to only mention two. The Edith Grant recipient, Martin Best, and the King Trophy recipient, Sean McGrath, are fine Andreans of whom we are very proud. At this time it seems appropriate to mention ten young men who have been members of Mac House for their entire Lower School career: Jon Arciszewski, Jose Arteaga, Peter Clarke, Jhad Friesen, Marcus Gillam, Greg Goldsack, Terry Kerr, Jason LaMarche, Matthew McConnell and John Shik. All the best next year and thanks for your contributions over those three LONG years.

This year also saw the appointment of the first ever Head of House with Ted Mirkopoulos performing his duties with much style and class. The house looks forward to strong leadership from Scott Bryk and John Clarke, our Heads of House for next year. As I mentioned earlier, this has been a fine group of young men to be associated with and I feel that the future of St. Andrew's is in a good state as a result. Thanks again for everything guys.

# MEMORIAL HOUSE

It's July ... the hum of the house is gone ... all that can be heard are the saws and hammers fixing the wear and tear on the house.

As my mind wanders back over the year, I remember the first day when the New Boys arrived and there to welcome them to Memorial House was this Rookie Housemaster and Grade 13 Old Boys.

Mr. James Hamilton, the guest speaker at our first annual house dinner, enlightened us about our roots. This house and the chapel were built as a *memorial* to those Andreans who gave their lives in World War I.

It is fitting that throughout the year the denizens of Memorial House gave of their time and talents in their own way. In school activities, we had representatives on all the school teams, school plays (*Hamlet*, *Anything Goes* and *Dogg's Hamlet*) and the Debating Society.

In the house, we had many fun and delicious BBQ's by the King (alias Sam Alvaro) and we had great participation in the house play, the Christmas door decorating contest, the hockey pool, the dart tournament and we can't forget our annual trip to watch the Jays play ball (wet and cold, but did we have fun ... you bet!) We purchased a ping pong table and dart board which along with Friday videos added to house involvement and relaxation time.

I would like to especially thank the Grade 13's and Head of House, Alex Bradshaw and Prefects, Brian Ledson and Mark Glusing, for their encouragement, enthusiasm and effort in bolstering house and school spirit. It was a fun year for me as Housemaster and I know everyone enjoyed the good times. I appreciated the willingness of all those who helped others through the tough times. Our predecessors would be proud.

Brian Raaflaub

NEW HOUSE

## RAMSEY HOUSE

After switching posts from boarding housemaster for the last eight years to rookie dayboy housemaster in Ramsey House, I had been interested in observing life on the other side of the student fence. Did dayboys really contribute to the quality of school life? Could one be a dayboy and derive fulfillment and satisfaction from the St. Andrew's experience? Was the legendary Mr. Smith really right in his disparaging condemnation of dayboys as being something less than human?...

Although we now number considerably fewer than our largest boarding counterpart (Ramsey's 51 students to Flavelle's 75), the House effectively pulled its weight in all facets of School life. From First Hockey to drama, from track to swimming, from debating to academics, from photography to editing the *Review*, from barbecues to bowling, the men from Ramsey House were involved and enthusiastically contributed greatly to the quality of life at St. Andrew's College. It was this involvement that carried the House to a successful conclusion at Track and Field day and paved the way for our outstanding sweep beyond all expectations to win the prestigious House - Clan competition trophy.

Although the House is to be commended for its efforts throughout the year, special mention should be made of a few individuals for their outstanding contributions. Prefects Curtiss Boyington and Derek Plaxton provided solid leadership and direction to House spirit and deserve a hearty thanks for their dedication and commitment. Kevin Worry set an academic standard of excellent achievement that will be hard for future Andreans to beat. Ramsey House was privileged to have had the School's Head boy within its ranks. Many others, too numerous to mention, are to be commended for their excellent performances in sports, drama, cadets, and in the classroom.

Thanks Ramsey House for a great first year. I was proud of your many significant accomplishments. I look forward with great anticipation to see what the coming year will bring. With new Prefects, Steve Creber and Todd Mank I am confident that the House will again make major contributions to the quality of School life. Mr Smith - I have had my eyes opened and experienced a new perspective. Dayboys have more than earned deserving praise. Ramsey House students should be acknowledged as playing a vital role in the success of the experience of St. Andrew's. Ramsey House - I'm proud of you. Keep up the good work.

S. R. Treasure

Life in Sifton House could never be better. We, sixty-six members of The House, live in what could be described by any member of the other two senior boarding houses as Paradise, Utopia, Heaven or even Valhalla.

Sifton House has had this popular image ever since the departure of their past housemaster, Mr. Kitchen, now headmaster in a New Brunswick school. With the arrival of Mr. Robinson, commonly known as Robo, life in The House has had a turn for the better. Gone is the strictness that once filled the halls of Sifton and in its place there is a laid back feeling that incorporates unity and pride from all of Sifton's members.

Sifton House takes pride in being the house that offers sleep-in breakfasts twice weekly, and movie nights and BBQ's once a week. None of the other houses offer nearly as many advantages, plus the best housemaster. He has allowed his patrons room for awareness, creativity, opportunity and the exploring of one's self. By setting new guidelines, there is more responsibility on the member to be prompt for meals, chapel, study and bed-time. This allows the student to take his stay in The House much more into his own hands; he is now taking a greater responsibility for his own life which is not offered in the other two houses.

Sifton House is a house for the strong in mind and heart, a house that would let nothing get between a young man's growth and education and above all, a house that cares.

## ST. ANDREW'S

**S** stands for the simple, the state of those who come to this place where learning flows.

**T** for the things they do not know and trials which they must undergo.

**A** stands for answers so fresh and so green the masters keep wondering just what they could mean.

**N** for the 'nowledge quite profound scattered upon such fertile ground.

**D** stands for detention long and cruel which teaches him not to play the fool.

**R** for the rules so easy to break and the subsequent rod which makes one quake.

**E** stands for exercise, there we excel, though of course in matric we do equally well.

**W** for week-ends so short and so sweet to all those not gated, a regular treat.

**S** stands for St. Andrew's, where through right and through wrong boys learn how to quit them like men and be strong. CROWE.
